Blinds and Shutters

Repairs and or Service

REPAIR OPTIONS AND COSTS

Cheapest way possible?

Returning customers. We may have the reference number that are required to have your blinds repaired at an authorized service center. If not, it should be on your blinds.

Remove the blind or shade and access the manufacturer reference and line item #, (it should be in the head (top) rail. Open roll type shades information label may be on the metal tube (under all the material)

Contact the manufacturers customer support and present your reference # and describe the issue. They will send you a repair reference # that you can use with the Authorized Service Center. Repair centres are in Toronto and Kitchener.

Transportation of the blind to the service center is at your discretion. Note: packaging and shipping. It's costly.

If your blind is under warrantee, it will get shipped back to you, gratis.

If it is not under warrantee, return shipping costs may be incurred.

I know, that's a lot of things.

Level up...

First Service Appointment

\$125.00

We will ask a few questions prior to a service visit to help determine if we can repair it on site. during our visit. If the problem cannot be resolved, we will remove it for replacement parts, repair or both.
