

How to use Peel & Stick® Stamps

Start with a personalized stamp...	Peel away center monogram/design...	And just the outer ring remains...	Stick the new design in the center!

1.	2.	3.
<p>Press your self-inking stamp all the way down, then push the red lock buttons to lock into place.</p>	<p>If replacing an existing stamp on the stamp body, first use a dry paper towel to wipe away the ink. PEEL away the polymer stamp die. You can peel away the center monogram/design, the outer ring or both!</p>	<p>PEEL the new stamp die from the Peel & Stick® sheet and STICK it on the polymer design disc. Once you start stamping the locks will release.</p>

We also have helpful videos on our website that will provide more instruction of how our Peel & Stick® stamps work!
