About Us

Alumarail Manufacturing Inc. has been in the aluminum business since 1983, providing maintenance free aluminum for homes and special projects. Specializing in aluminum railings for your home or business, custom made to satisfy your requirements. We manufacture aluminum railings, gates, fences, columns, in a variety of styles and colours. We strive to be the leader in quality aluminum products and continue to exceed every customers expectations. All our railings meet the Ontario Building Code.

With an aluminum railing from Alumarail you get the beauty of wrought iron without the hassle... Railings that are maintenance free and never rust. What's more you get the expertise, commitment and customer satisfaction that comes with a company that has been in business for over 25 years.

Alumarail uses the finest aluminum extrusion company in the GTA, not galvanized steel, to ensure you will be happy with the installation many years from now, guaranteed. We will discuss the colour and style of railings, columns and gates that you want. Then precise measurements are taken to ensure a perfect fit. An estimate is prepared for your consideration and approval.

With your go ahead, we will custom manufacture your railings. The pieces are then painted to your exact specifications. The colours are baked, not powder-coated, to ensure a lasting, UV resistant finish. The crew then arrives for the removal and disposal of any existing railings and the installation of your new ones. The end result is a home transformed, one that strictly adheres to federal and provincial building codes, with the area so clean you won't know that anyone had been there.

If you want to save some money on installation and do it yourself, Alumarail will instruct you on the proper techniques. We also do new custom-built homes and subdivisions.

If you want to transform the look of your home and reduce maintenance, call Alumarail today for a free estimate or drop by our showroom.
