Mount To Concrete
Or Any Other Surface

Any wood or PVC fence boards
equal to or less than 7/8" can be
used as panel fillers

Patent-pending Moderna Fence Horizontal System was designed to fulfill the need for an elegant, robust, durable, light, and installation-friendly horizontal fence system.

Mainly constructed from two components, these two multi-functional components are used separately or in combination to create line posts, end posts, corner posts, gate posts, gates, locking brace, and spacers for semi-private horizontal fences.
