New 832 Heroes are on the ground!

Deputy Dogs is proud to announce the birth of our newest litter of Bloodhound puppies born on May 5th at our new breeding and puppy facility in Alabama. We call them "The Alabama American Arms Litter".

This gang of 8 potential little life savers were born to one of our special breeding females 832's Miss Lilly who is the proud Mother of 5 girls and 3 boys. Our breeding program director Donna McNeil Wilson has been overseeing all the needs of these new babies, which is no easy task as you can imagine.

At about 8 weeks old these pups will be going out to foster families for the 1st part of their training which is all important. Socialization is "key" to giving the pups a head start and ensuring that they will be totally comfortable in any situation they may encounter when they finally go to work with law enforcement.

Our foster families take them to schools, play grounds, adult care facilities, airports, malls, city streets and out on country roads just to name a few venues. Donnie and Dee Teague of Hernando as well as Sherry Noble of Astatula long time volunteers of Deputy Dogs are all planning on fostering again. The pups will become part of their family until they are about 6 months old and then the hard part of giving them up happens. It is difficult to say goodbye to your little puppy that you have given so much love and time to, but the rewards of knowing that all your hard work and sacrifice have helped to save the life of even 1 child makes it all worthwhile.

A special thank you to Ms. Wilson for her love and dedication, she lives our motto every day "It's all about the Heart". For more information or to donate please visit www.deputydogs.org
