IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

SOUTH MIDLAND COUNTY WATER SYSTEMS PWS 1650077 has violated the monitoring and reporting requirements set by Texas Commission on Environmental Quality (TCEQ) in Chapter 30, Section 290, Subchapter F. Even though these were not emergencies, as our customers, you have the right to know what happened and what we are doing (or did) to correct these situations.

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During 1st 6M2025, 2ND 6M2024, 2ND 6M2024, 2ND 6M2023, 2ND 6M2023, 1st 6M2023, we did not monitor or test and therefore cannot be sure of the quality of your drinking water during that time.

The table below lists the contaminant(s) we did not properly test for during the last year, how often we are supposed to sample for [these contaminants], how many samples we are supposed to take, how many samples we took, when samples should have been taken, and the date on which the follow-up samples were [or will be] taken.

What is being done?

[corrective actions]: In order to return to compliance, we must collect a complete set of ten (10) lead and copper sample tap samples from registered sites with TCEQ between July 1, 2025 and December 31, 2025 and the results to TCEQ by January 10, 2026 and those will be collected on (date) 1/15/26.

We are working to correct the problem. For more information, please contact:
