

# Inspectis LCD

## Digital Inspection System

**(877) 682-0452**

**[www.NorthStateVision.com](http://www.NorthStateVision.com)**  
**[info@northstatevision.com](mailto:info@northstatevision.com)**

**The Inspectis LCD is an all-in-one, space-saving, High Definition, digital inspection instrument that combines all the best features of a desktop system with transportability and connectivity. Take Inspectis LCD wherever you need it to visually inspect your surgical instruments. The system can be setup in a stationary workstation, or taken to offsite surgery centers and clinics in its protective rollerbag.**

**The height of the camera allows for a wide viewing and working area and the 19" or 24" screen allows for instruments to be magnified up to 73x to ensure their efficacy. The unit also allows the technician to capture images to document defects or add images to their database for instrument cataloging and training.**

**1.7x - 73x Magnification**

### Key Features:
