

# Inspectis Port

Digital Inspection System

The Inspectis Port is an all-in-one, space-saving, High Definition, The Inspectis Port is a full HD portable inspection system that folds down into a small carry case that allows the technician to travel easily between hospitals, surgery centers and clinics. The unit's 16" or 19" monitor gives enough viewing area to inspect any surgical instrument or kit.

It's optional battery allows the unit to be used without being plugged in for true autonomy. The monitor is tilt and height adjustable for ease of viewing.
