

The Inspectis Grip is a handheld, digital inspection system utilizing an HD camera and an integrated, 5" LCD screen for a high quality image. The integrated handle allows the technician greater control and access to the magnification and freeze controls with only one hand.

The focus button allows for greater field of view and the magnification range of 1 - 22x gives the technician everything they need to inspect the instruments wherever they are.

**1x - 22x Magnification**
