

Peak Rubber Company provides custom molded rubber and silicone engineered parts for your specific requirements. With over 30 years of experience in the custom molded rubber industry, you can expect Peak performance when it comes to your needs. Reduced lead times, exceptional value, and quality products are just a few of the ways you will experience Elevated Service and Quality when you reach the Peak!

All products Made and Molded in the USA!

Custom Products include: Seals, Gaskets, Grommets, Boots, Bellows, Spacers, Connectors, Covers, Bumpers, Balls, Eyecups, Lens Covers, and Keypads to name a few.

In addition to **Custom Molding** solutions for your requirements, we use **Die-cut, Water jet, Lathe-cut,** and **Extrusion** operations to meet all your rubber and silicone needs.

Materials: (Mil-Spec and Commercial grades) Buna-N (Nitrile, NBR), Butyl, EPDM, Hypalon, Natural, Neoprene, SBR, Silicone, Fluorosilicone, Viton, and Colored materials.

Tooling Expertise: We design and manufacture steel tools/molds from your part, drawing file, or sample. Have your own tooling? We can use it. Need samples to full production tooling, from one to millions- Peak Rubber can do it all.

Rubber/Silicone to Metal Bonding: Ideal results can be achieved when bonding an insert material to your rubber part. Peak provides customized solutions for bonding rubber/silicone to many different materials including: Steel, Stainless, Cast, Aluminum, Brass, and Phenolic.
