**Current Employment****Primary Paramedic – Hamilton EMS (Mills County TX Station)**

Highly skilled and qualified medic with over 15 years of EMS experience. Currently, serving a 900 square mile rural coverage area as the only ALS provider. Function both independently and as a team over a large area with limited support and resources. This requires decisive leadership, clinical excellence and operational self-sufficiency. Providing advanced prehospital care with extended transport times that range from 45-100 minutes, which require comprehensive assessment and appropriate, accurate and measured care, often using multiple treatment modalities and depth. Proficient in advanced airway management including RSI/DSI, surgical airways, and ventilator management with the Hamilton T1. Skilled in 12 lead interpretation, IV pumps, thoracotomy, and leveraging infusions including norepinephrine, dopamine, ketamine, fentanyl, magnesium, calcium, labetalol, diltiazem, nitro, heparin, vecuronium and antibiotics like cefazolin. Demonstrated competence in advanced assessment and treatment. Recognized for maintaining exceptional clinical judgement, composure, and patient satisfaction in high acuity, resource limited environments.

TX EMS Educator

*I originally enlisted as a combat medic in 1993, this began a life full of selfless, compassionate, and empathetic public service. I am a multifaceted paramedic skilled in 911 response and ops, fire, flight medicine, critical care, tactical operations, ER, remote advanced clinical care and multiple years educating and mentoring. I also bring both hard and soft skills, past research, analytical skills, leadership and business ownership and operations. Drawing upon a very full and dynamic life, both teammates and patients might describe me as professional, safe, mature, friendly, humble, and collaborative. EMS is my passion, purpose, and calling.*
