

We provide services tailored to your company's needs

Turn innovative ideas into a powerful engine for business growth . Cloudaball experts makes it easy for Telco providers to plan and execute strategically on Devops, Telecom and public Cloud initiatives .

Key benefits

- Improved agility with a clear understanding of architecture impacts and dependencies
- Our staff is our secret to success -Elite group of talents for proven architectures delivery
- Accelerated time-to-market with cloud solutions
- Lower TCO architecture
- Ready-to-go reports and dashboards for fast access to important facts about your business portfolio

Cybersecurity Solutions

All organizations have an urgent need to improve endpoint security and resilience, protect privileged network access credentials, reduce fraudulent transactions, and secure every mobile/PC device applying Zero Trust principles.

Architect Optimal Solution-DevOps

The Cloudaball DevOps (Developer to Operations) team enables continuous delivery of new code by using the best innovative and industry-standard practices, cloud features and flexible tools to design, develop and maintain cost-effective cloud infrastructure along with continuous integration and automation of your business workflows.

On-premises to Public Cloud

Cloud transformation results in an organization that can execute at a higher rate of speed, learn from failures and constantly improve. Our team masters the AWS, Azure and GCP clouds and their tools to provide quick scaling and globalization

Roadmap and Technology Consulting

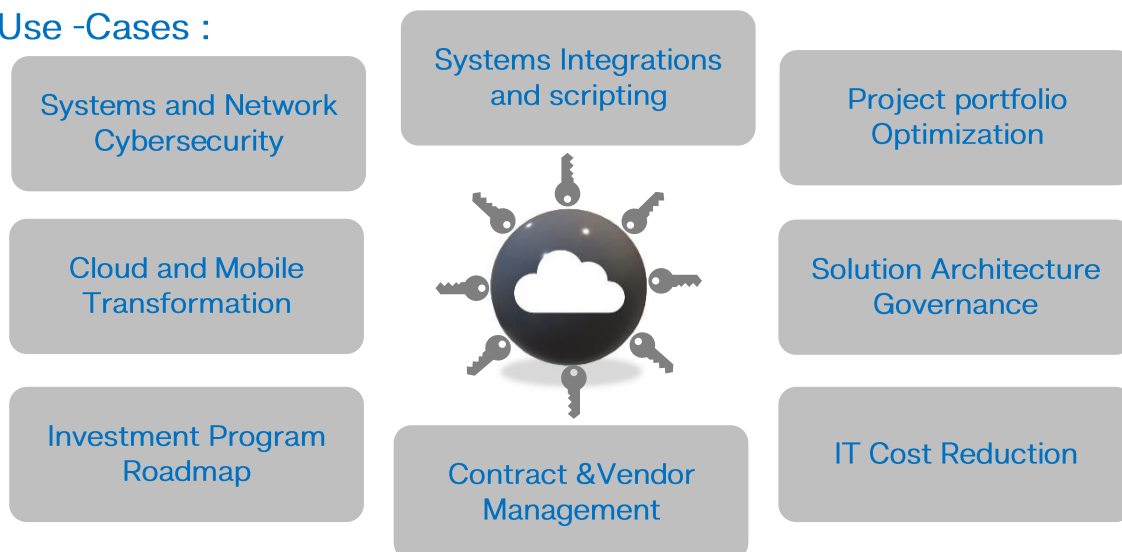

We're unbiased and go beyond just the tactical aspects of consultancy services— focusing on your business strategy and how to achieve your strategic goals. The right people, processes, and technology can unlock business efficiency and the value your products delivers to the business' bottom line.

Contract & Vendor Management

Wondering if your vendor solution is best for you?

Leave us the painful work of filter, select and manage your vendor portfolio, while supporting and participating in the implementation. Our serviced includes also building and answering RFI RFP for outbound tenders
