Discovering Psychology

- Video 14 - The Mind Hidden and Divided
Annenberg Learner [2001]

- 1) Is the subconscious available to the conscious mind?
- 2) It is believed that traumatic events can alter consciousness. Describe *recovered memory* and the controversy surrounding this concept.
- 3) What is the purpose of *repression*?
- 4) Describe *hypnosis* and list some practical applications.
- 5) What is actually severed in a split brain operation? Why are these operations performed? What can we learn from subjects who have undergone this surgery?
- 6) Label the particular skills with its typical brain hemisphere (L = left, R = right):

_____ language

_____ spatial relationships

_____ pattern recognition

_____ analysis

_____ creating explanations

_____ perceptual problems
