#### Interpretation guidelines

The value "5" represents "Strongly Agree" while the value "1" represents "Strongly Disagree". Keep in mind that students completing their course evaluations does not necessarily mean they answered each question. As a result, for some items, you may notice that the total number of responses is lower than it is for others. In these cases, the student decided to skip this question. Students also may have skipped the open-ended questions, thus leaving you with fewer responses in these sections.

readings were too complex for intro philosophy course powerpoint were actually 100 slides long, impossible to study

Professor Rausch was always prepared. Philosophy isn't an easy course in general, but professor Rausch explained the material in depth and answered all questions the class had. He is on top of grading assignments in a timely fashion and responds quickly to emails when you have a question. Definitely a great overall professor. I enjoyed his class!

This course has been very informative. It was an interactive experience and I felt like the professor truly cared about if the students actually understood the material.

Very good class it's just a hard subject to learn

do more group work, or games to create a more fun atmosphere.

Instructor helped us as much as possible

This course was very interesting, and the professor made it easy to understand.
