<i>Can't Draw a Straight Line?</i>	06/18/18	1 - 4 PM	Drawing
<i>Can't Get Your Angles Just Right?</i>	06/25/18	1 - 4 PM	Painting

Can't Draw a Straight Line? (Surprise! You don't need to)

Instructor: Leslie Davis

Dates: June 18 - 22

Description: Drawing doesn't need to be stressful! There are several ways to learn to draw from life effectively. We'll look at the following: contour and blind contour drawing, positive and negative shapes, viewfinders, foreshortening, chiaroscuro, texture, proportion, values and tones, ellipses. We'll try some different media: pencil, graphite, pen and ink, and black and white charcoal.

Can't Get Your Angles Just Right?

Instructor: Leslie Davis

Dates: June 25 - 29

Description: *Using linear and aerial perspective to create a sense of depth;* emphasis will be on two-point perspective, but one and three point will also be explored and its practical uses will be developed. Foreshortening and aerial perspective are also tools in the artist's box to achieve that sense of depth. Perspective is simply creating an illusion of three dimensions on a two-dimensional surface using lines, colors, and values.
