

ABOUT US

AMR is a Veteran-owned, Christian company that has been a leader in Medical Equipment, Rehab Equipment, and Compression Garments since 2002. We provide service to ADULT and PEDIATRIC patients for burns, scars, and genetic malformations.

American Medical and Rehab

Compression garments have been used to assist with healing and treatment of various genetic problems and traumatic scarring. AMR and Bio-Concepts have teamed up to offer the best products and service available, whether Custom or Ready-Made.

AMERICAN MEDICAL AND REHAB COMPANY

Contact us for information.

We are specialists in Compression garments, DME, and custom Rehab equipment. Power chairs, oxygen, CPAP, hospital beds, and much more are offered through American Medical and Rehab Company.

YOUR HEALTHY HEALING
IS OUR PRIORITY

OUR SERVICES

Caring and compassionate service is what we are known for. We have dedicated professionals in every step of the process to help guide you through, from measuring and fitting, to billing your insurance. We are dedicated to your therapeutic healing.

Silon-Tex

(Silicone-Bonded Textile)

A silicone-impregnated fabric has many advantages: patient compliance, easier to work with, longer lasting, and lower cost. Very effective as a liner or part of pad and pockets.

"American Medical and Rehab did a great job! The garments fit perfectly. It's like another layer of skin. I can't imagine how differently my healing would be without them."

-Becky K.

1

Burn Garments

Compression garments are used in tandem with other therapies to help the healing process of burn victims. We offer Custom and Ready-made garments. Full body and face available.

2

Vascular Malformation

Genetic diseases causing vascular malformations often require compression as a modality to assist in maintaining the lymphatic component of these illnesses. We offer a wide variety of custom compression garment options to meet these needs.

3

Post-Mastectomy

Post-mastectomy therapy often requires compression to assist with fluid removal and healing. We are able to custom make garments for quick, accurate therapy.

4

Pelvic Leveling Garments

AMR and Bio Concepts are uniquely able to offer pelvic-leveling garments for injuries that create an uneven pelvis. These are able to fill large void spaces and continue therapeutic compression.

Why choose us:

- Knowledgeable and friendly Staff
- Quick, professional service
- Certified Fitters
- Both companies are nationally accredited through *The Compliance Team*
- Nearly unlimited customization
- Ready-Made garments
- 30+ colors
- Great customer satisfaction rating
- FDA certified medical garments
