

Comfort wave

Products LLC

MAX Series
Pool and Spa Heaters

we make life better™

ENGINEERED FOR COMFORT

Every Unit is upgraded with a powerful ½ horsepower fan motor and an oversized 26 inch blade, maximizing heat transfer by harnessing more energy from the surrounding air. The result is exceptional heating performance paired with remarkably quiet operation at just 825 RPM delivering the kind of comfort you can feel without hearing.

COMFORT AT YOUR COMMAND

Designed for effortless integration with virtually any automation system. Including chill with our comfort heat/cool functionality through an auxiliary relay. Tired of rentals or homeowners messing with settings? Set to our remote-enabled thermostat. It only listens to the automation system. Intelligent controls keep your settings exactly where you want them, ensuring uninterrupted comfort with every use.

BUILT FOR LASTING COMFORT

Constructed with a rust-proof, impact-resistant polymer cabinet, Comfort Wave heat pumps are engineered to thrive in demanding outdoor environments. The durable housing minimizes vibration and sound while protecting the system from the elements, providing comfort season after season. Comfort Wave products are thoughtfully designed with our customers in mind, combining smart layout, ease of use and convenient access to make ownership simple and worry free.

THE COMFORT OF CONFIDENCE

True comfort comes from knowing you're protected. That's why our heat pump is backed by an industry-leading 10 year parts warranty and 3 year labor warranty, giving you complete peace of mind and confidence in your investment.
