

WARNING

FAILURE TO FOLLOW THE MANUFACTURER'S INSTRUCTIONS CAN RESULT IN DEATH OR INJURY.
USE CARRIER ONLY WITH CHILDREN WEIGHING FROM 8 TO 44 POUNDS.

SUFFOCATION HAZARD

- Babies younger than 4 months can suffocate in this product if face is pressed tightly against your body. Babies at greatest risk of suffocation include those born prematurely and those with respiratory problems.
- Check often to make sure baby's face is uncovered clearly visible and away from caregivers body at all times.
- Make sure baby does not curl into a position with the chin resting on or near baby's chest. This position can interfere with breathing, even when nothing is covering the nose or mouth.
- If you nurse your baby in carrier, always reposition after feeding so baby's face is not pressed against your body.
- Never use this carrier with babies smaller than 8 pounds without seeking the advice of a healthcare professional.

FALL HAZARD

- Leaning bending over, or tripping can cause baby to fall. Keep one hand on baby while walking.
