This home features a recessed covered entry and the largest covered back porch of the plans. The back porch has vaulted ceilings and a wood burning fireplace. The interior features a gallery entry hall that leads to the open living space. The kitchen features a huge walk in pantry, large center island, and a wide-open view of the vaulted family room with wood beams, fireplace, and built-ins. The primary suite sits privately at the rear of the plan with a large vaulted bedroom, spa bathroom with an oversized zero-entry tile shower with frameless enclosure, and a huge walk in closet. Secondary bedrooms are situated on either side of the entry hall. Wood tread staircase leads to the optional upper level which adds 544 sq ft of additional living space, bedroom, and bathroom.
