FOUR ANALYSIS AND CONSULTING

SOLUTIONS 4AC

Juniper Networks

- Network security - firewalls.
- Switches, routers, access points.

- Hardware, licenses and vendor support sales.
- 4AC Support, consulting services, network design, sizing and scaling, provisioning and training.

Pulse Secure

- Secure access to company resources for employees, partners and suppliers

- Hardware, licenses and vendor support sales.
- 4AC Support, consulting services, network design, sizing and scaling, provisioning and training.

IBM Security QRadar SIEM

- Log manager and events correlation (SIEM).
- Risk and vulnerability manager.
- Forensic and traffic flow

- Hardware, licenses and vendor support sales.
- 4AC Support, consulting services, network design, sizing and scaling, provisioning and training.

Microfocus Sentinel SIEM

- Log manager and events correlation (SIEM)

- Hardware, licenses and vendor support sales.
- 4AC Support, consulting services, network design, sizing and scaling, provisioning and training.

Fortinet

- Network perimeter security - firewalls.
- Wireless Network - Access Points

- Hardware, licenses and vendor support sales.
- 4AC Support, consulting services, network design, sizing and scaling, provisioning and training.

Palo Alto

- Network security - firewalls.

- 4AC Support, consulting services, network design, sizing and scaling, provisioning and training.

IBM Security Proventia

- IPS

- Hardware, licenses and vendor support sales.
- 4AC Support, consulting services, network design, sizing and scaling, provisioning and training.

SOLUTIONS 4AC

Cisco Systems

- Network security - firewalls.
- Switches, routers, access points.

- Hardware, licenses and vendor support sales.
 - 4AC Support, consulting services, network design, sizing and scaling, provisioning and training.
-

Solarwinds

- Performance and network devices monitoring.
- Application monitoring.
- Traffic flows Monitoring.
- Backup and configuration management.

- Hardware, licenses and vendor support sales.
 - 4AC Support, consulting services, network design, sizing and scaling, provisioning and training.
-

F5

- Load Balancing Traffic (LTM)

- 4AC Support, consulting services, network design, sizing and scaling, provisioning and training.
-

Microfocus PAM

- Privileged Account Manager
- Privileged user activities auditing on Unix / Linux servers.

- Hardware, licenses and vendor support sales.
 - 4AC Support, consulting services, network design, sizing and scaling, provisioning and training.
-

Microfocus IDM

- Identity Management
- LDAP e-Directory

- Hardware, licenses and vendor support sales.
 - 4AC Support, consulting services, network design, sizing and scaling, provisioning and training.
-

SERVICES

	Description	Solutions
Network Traffic Analysis	<ul style="list-style-type: none">- Network traffic assessment and analysis.	<ul style="list-style-type: none">- Network Specialists.- Tools for measuring traffic.- Protocol Analyzer.
Vulnerability Assessment	<ul style="list-style-type: none">- Vulnerabilities inspection and remediation recommendations- PenTesting, Ethical Hacking, etc.	<ul style="list-style-type: none">- Vulnerabilities scanning tools- Scripts
Technical support and Maintenance	<ul style="list-style-type: none">- Tier 1 and 2 technical support, vendor case and RMAs management.	<ul style="list-style-type: none">- Qualified engineers.- 8x5 Service.- 24x7 Service.- Annual Service.
Consultancy	<ul style="list-style-type: none">- Networking, Security and specialized consulting services.	<ul style="list-style-type: none">- Network design, sizing and scaling.- Configurations.- Troubleshooting.
Training	<ul style="list-style-type: none">- Training by certified instructors. The syllabus and content is designed to help with day-to-day activities. Lab practices and learning methods will improve IT employees productivity,	<p>Training Courses:</p> <ul style="list-style-type: none">- Networks- Security.- Troubleshooting.
Managed Services (Outsourcing)	<ul style="list-style-type: none">- Managed services by certified engineers remote and on-site.- Tier 2 provided by 4AC support engineers	<p>Plans: Bronze, Silver, Gold y Platinum. For more information, ask your account executive.</p>
