Pickle Ball and Shuffleboard are two of the fastest growing adult sports. Shuffleboard is more mentally challenging and much easier on the body. It requires no great physical strength, yet is a game of skill and strategy. Unlike golf, all play is indoors so there are no rainout days. Our hours of play avoid rush hour traffic. This is an inexpensive way to have fun, make new friends, and get in some easy exercise. One can play the entire season for slightly more than a single game of golf. If you have never played shuffleboard before, fear not. This is an easy game to learn, and we provide free shuffleboard cues, lessons, and improvement sessions. So come on down and play with us!
