RISKS AND CHALLENGES

What makes one excited and energized to the point they want to “hop”? Listening to music!

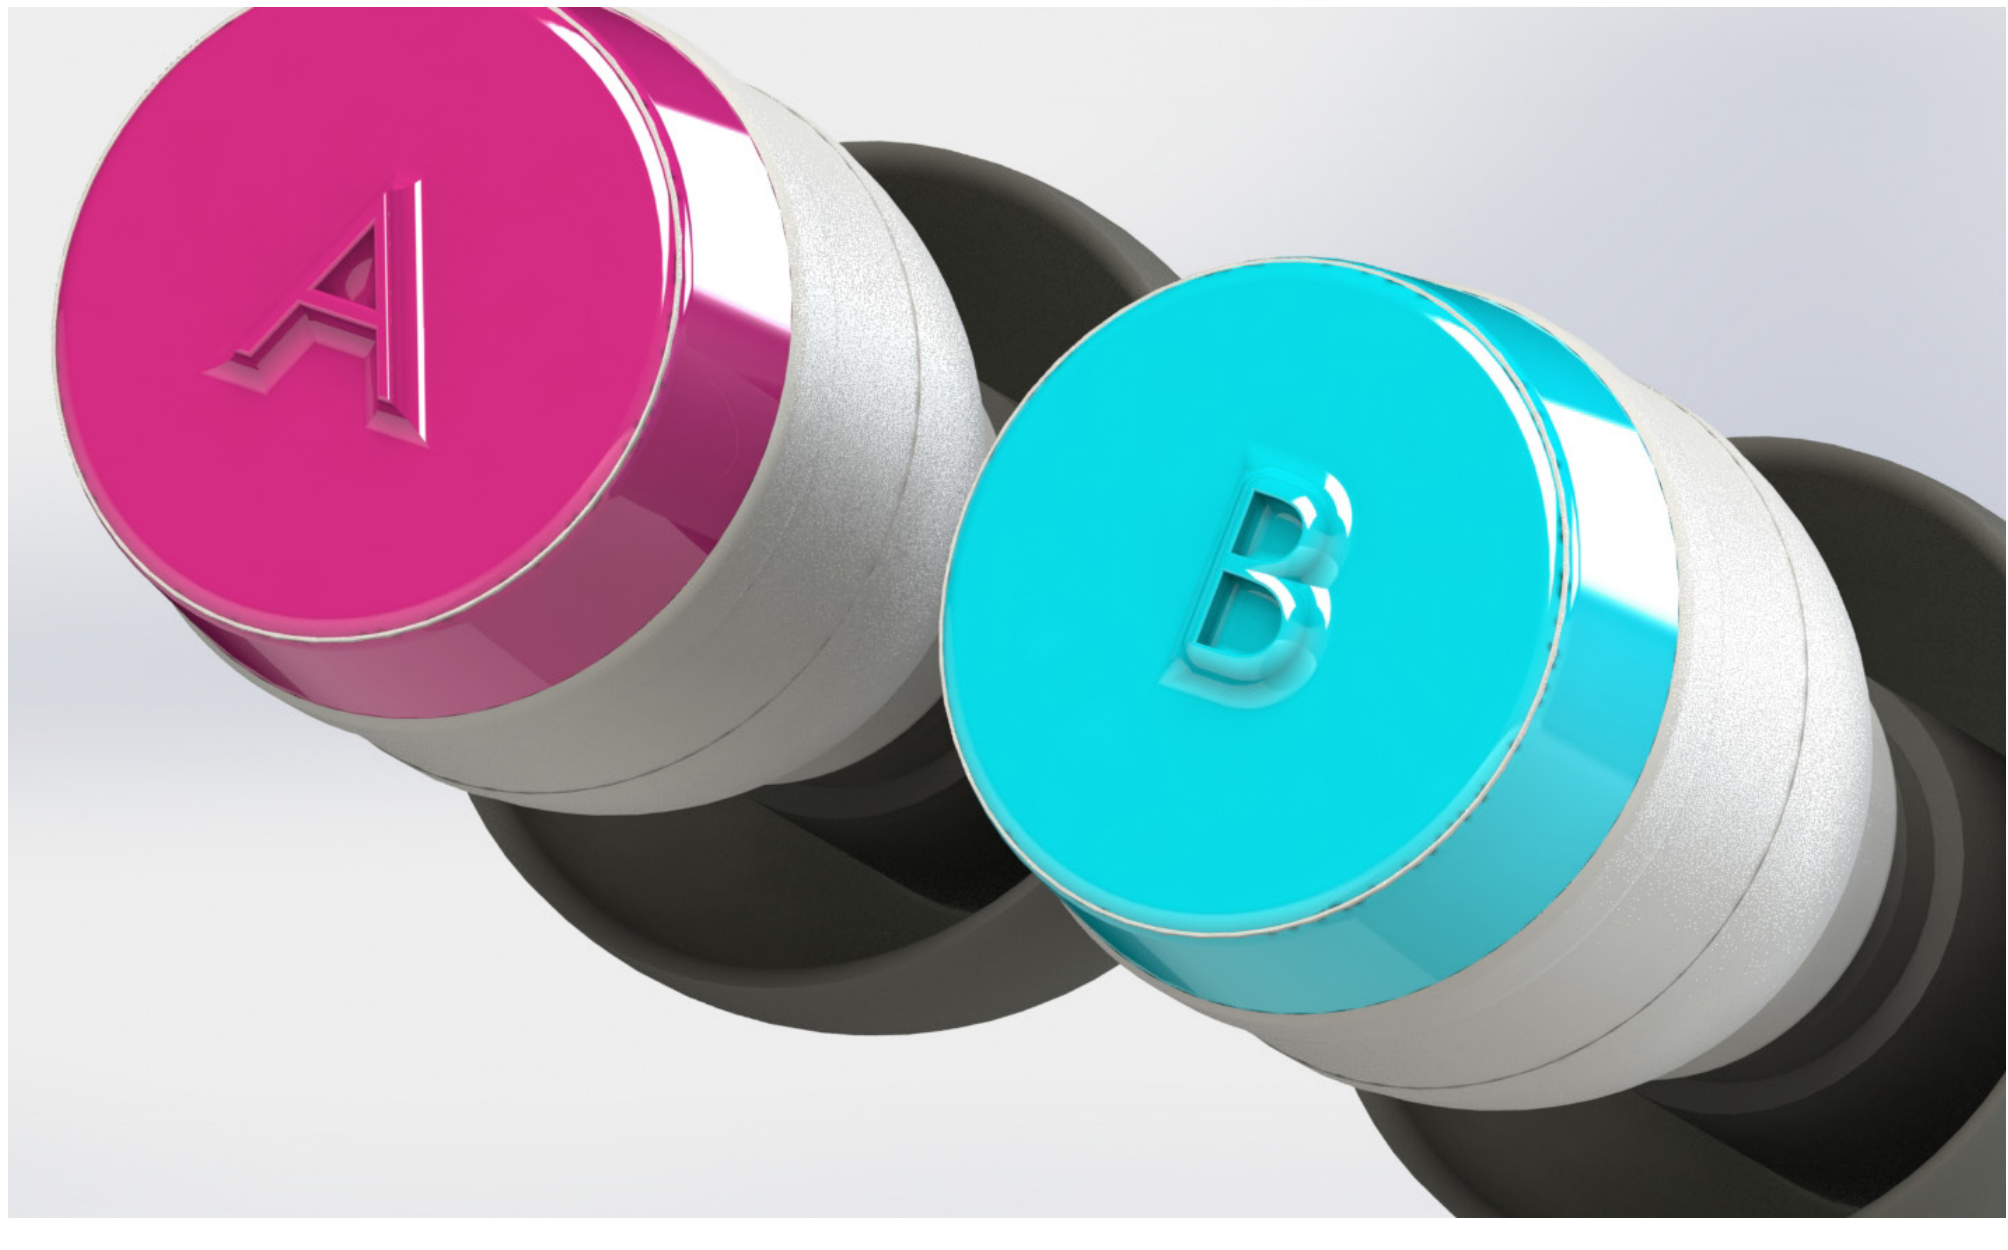

“Hoppy” is launching the first ever retro-inspired wireless earbuds with an in-built retro arcade game/charger case. Now you can have fun playing your favorite classic arcade games from the 80’s while you listen to your favorite playlist.

The “Hoppy” brand hopes to bring back the feelings of nostalgia by delivering a unique and exciting experience of when the first arcade games were introduced. The brand hopes to preserve the authenticity of the early electronic video games era and enjoyment of music.

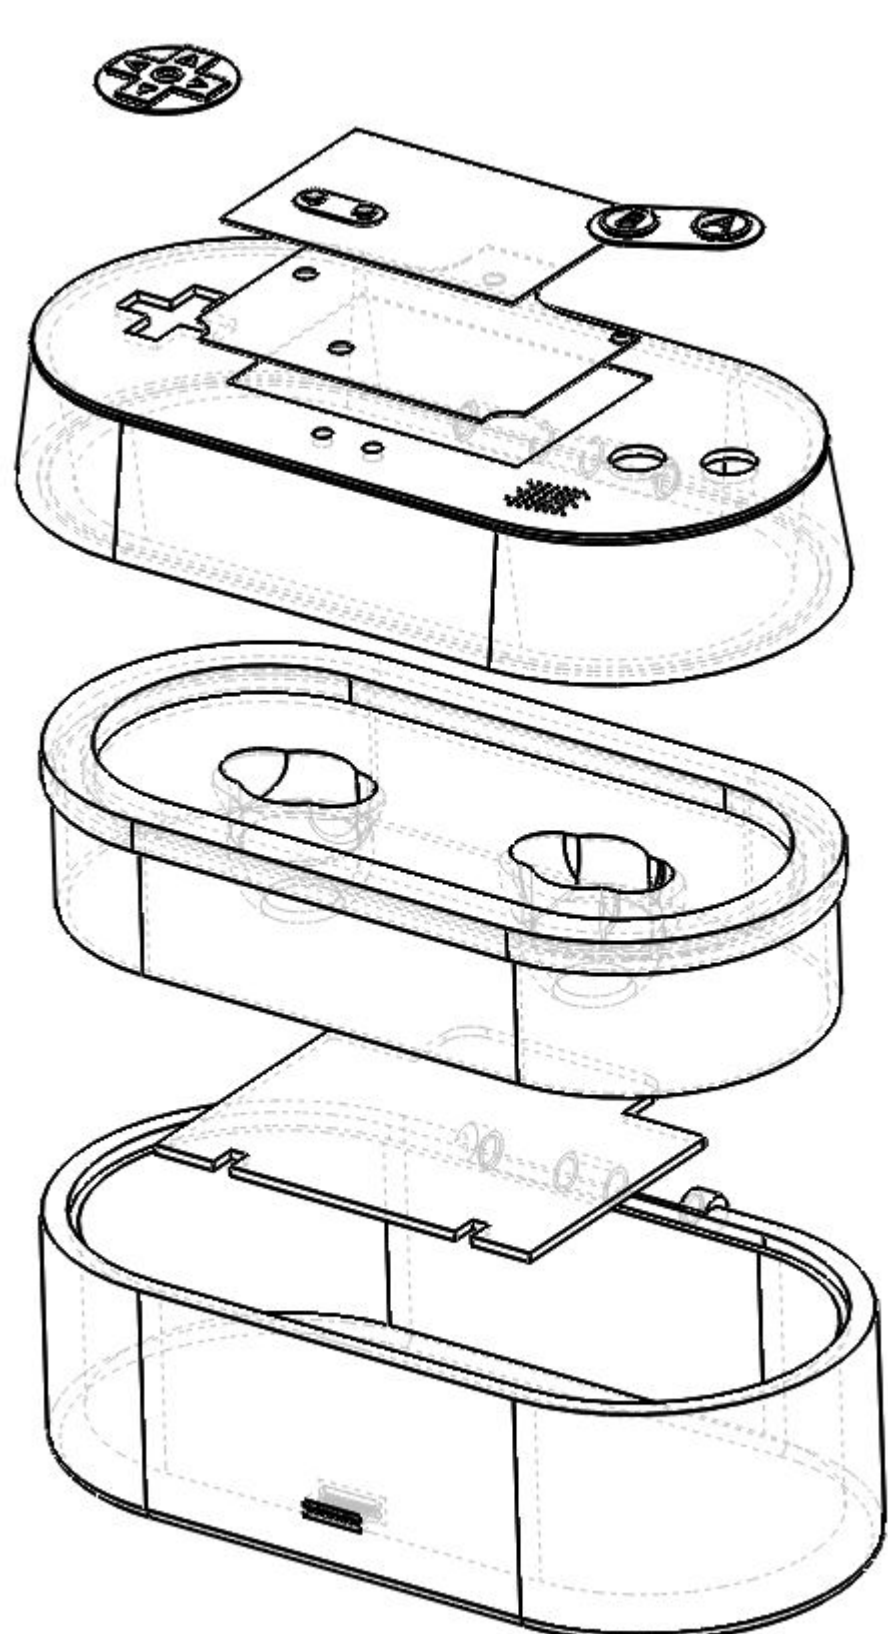

Product Design and Description

Hoppy’s case design is inspired by the retro-feel from the early 80’s game consoles. The case has an in-built gaming controller with colored display. Inside the rechargeable case, it contains the earbuds. The case has an outer LED purple light which turns on when the case is charging.

Hoppy’ earbuds carry the same retro-theme and trendy design that is shaped like a gaming button, wireless bluetooth device that offers great sound quality, durability, it is compact in size, and a battery life of up to 6 hours of the listening time.

Hoppy is available in colors: Original, Peachy Pink, and Snow.
