CA - 22%

=

Cost of Chronic Disease³

\$281,153,032

Per Year

COST OF SMOKING⁴

\$37,234,000

Direct
Healthcare Costs

\$36,552,000

Lost
Productivity

Chronic Disease drives health care expenditures, which cuts into company profits and productivity.

50% company profits go to healthcare costs.⁵

BETTER HEALTH = BETTER BUSINESS

In America, 80-90% of health outcomes are the result of conditions in communities. The Centers for Disease Control promotes a collaborative approach across all sectors to address overall community health by considering health in all policy decisions. ⁶

Reduce Tobacco Use

Tobacco Related Policies Save Lives

Does your community protect youth from tobacco addiction and harm?

Adopting strong policies that reduce exposure to second-hand smoke and access to tobacco products and ads reduces youth harm and initiation. ⁷

Access to Healthy Food

Healthier Options Equals Healthier Choices

Are healthy foods affordable and accessible for all in your community?

Research shows that making the healthier option the default leads to healthier choices. ⁵

Safe Parks & Playgrounds

Walkable Spaces & Economic Growth

Does your community make physical activity easier?

In one California city, \$10 million spent on more walkable public outdoor spaces spurred a \$125 million economic investment in the local downtown area. This led to the creation of 40 new businesses and 800 new jobs. ⁵
