

POOR HEALTH IS BAD FOR BUSINESS

LAKE COUNTY 2023 HEALTH SNAPSHOT

Lake County is ranked among the **least healthy** counties in California for Overall Health Outcomes and Health Factors¹

Lake County Health Rankings out of all 58 California counties¹

Smoking Rate¹

17%

CA - 9%

+

Obesity Rate¹

32%

CA - 30%

+

Physical Inactivity Rate¹

23%

CA - 21%

=

Cost of Chronic Disease²

\$223,107,993

Per Year

COST OF SMOKING³

\$33,723,000

Direct Healthcare Costs

\$30,825,000

Lost Productivity

Chronic Disease drives health care expenditures, which cuts into company profits and productivity.

50% company profits go to healthcare costs.⁴

BETTER HEALTH = BETTER BUSINESS

In America, 80-90% of health outcomes are the result of conditions in communities. The Centers for Disease Control promotes a collaborative approach across all sectors to address overall community health by considering health in all policy decisions.⁵

Reduce Tobacco Use

Tobacco Related Policies Save Lives

Does your community protect youth from tobacco addiction and harm?

Adopting strong policies that reduce exposure to second-hand smoke and access to tobacco products and ads reduces youth harm and initiation.⁶

Access to Healthy Food

Healthier Options Equals Healthier Choices

Are healthy foods affordable and accessible for all in your community?

Research shows that making the healthier option the default leads to healthier choices.⁴

Safe Parks & Playgrounds

Walkable Spaces & Economic Growth

Does your community make physical activity easier?

In one California city, \$10 million spent on more walkable public outdoor spaces spurred a \$125 million economic investment in the local downtown area. This led to the creation of 40 new businesses and 800 new jobs.⁴

The Shape We Give Our Community In Turn Shapes Us

Helping Communities Create Conditions for Better Health and Prosperity
