**The Director of Forestry
Regional Forestry Office
Ho**

Dear Sir/Madam:

PARTICIPATION IN MONETIZING THE CONSERVATION OF REMOTE AND INACCESSIBLE FORESTRY AREAS IN AVATIME, A PROJECT BY CROWD BOOTSTRAP OF THE USA.

As Paramount Chief of Avatime Traditional Area in the Ho West District of the Volta Region of Ghana, we have decided to participate in a forest conservation program proposed by Crowd Bootstrap.

Crowd Bootstrap will raise sponsorship funds from donors on our behalf. In return, the donors will receive rights to conservation benefits, such as voluntary carbon credits. We will use the donated funds to:

1. Provide security to prevent illegal deforestation.
2. Fund forest management programs that will enable us to comply with regulated carbon offset programs for other parts of the forest.
3. Finance a Crowd Bootstrap business accelerator that incentivizes local entrepreneurs to develop local solutions to local problems. The objective is to create jobs, spur economic growth and provide a more profitable alternative, and disincentive, to deforestation.

This program presents a great opportunity for us to conserve the forest while fueling economic growth.

Please respond to this letter by expressing your support and technical advice for this initiative, to enable the Traditional Area reap the environmental benefits.

We hope to hear from you soon.

**OSIE ADZA TEKPOR VII
OSIE OF AVATIME**
