HELLO! AND WELCOME

Let me begin by first saying: congratulations, Mom + Dad! This is such a wonderful time of life, and no doubt the coming year will be filled with amazing experiences and precious moments as you welcome a new little one into your family!

I'm so excited and incredibly honored that you are considering booking your newborn session with me.

This Welcome Guide has some important information about the newborn photography experience, as well as pricing details and some tips to help you plan and prepare for your session. If you have any questions at all, please don't hesitate to let me know.

ABOUT THE PHOTOGRAPHER

I am wildly passionate about pregnancy and birth, and believe it is one of the most spiritual experiences a woman can journey through in her lifetime. I am a lover of natural light -- I can find it and use it to create gorgeous and timeless photographs in any home -- including yours!

Out of everything i capture, lifestyle newborn Photography is by far my favorite! There is something about being welcomed into such a sacred space that humbles me and makes me appreciate every second. Giving back these sweet and revered memories is a joy i cannot quite put into words!

I am still humbled each and every time a client trusts me to capture their most precious moments in life!

“It was the tiniest thing I
ever decided to put my
whole life into.”

- Terri Guillemets

WHY BOOK A NEWBORN SESSION

When you have a new baby of your own, your whole world changes. The phrase “moments are fleeting” takes on a new meaning, as you begin to understand just how quickly time passes with your precious little one. Babies change and grow so quickly - especially in those early days of their life.

Booking a newborn session will help you capture these moments in time - moments that you will want to hang on to for a lifetime. These are more than just photographs; these are pieces of artwork for your family that will only grow in value. It brings me so much joy to know that you and your children will be able to look back and treasure these memories in the years to come.

WHAT TO EXPECT

Expect your newborn photography experience to be easy, relaxed, and fun. My goal with each session is to make things as stress-free as possible on you. The days following a birth can be a whirlwind of activity and emotions - so think of your newborn session as a time to slow down and enjoy some quiet moments with your new baby!

I also believe that when you hire a photographer, it should be someone who you connect with and feel comfortable with - so that is what I strive for! When you decide to work with me, you will receive the highest level of client care, and I also hope that you will be able to see me as a friend after we are done!

MY STYLE

RELAXED PORTRAITURE

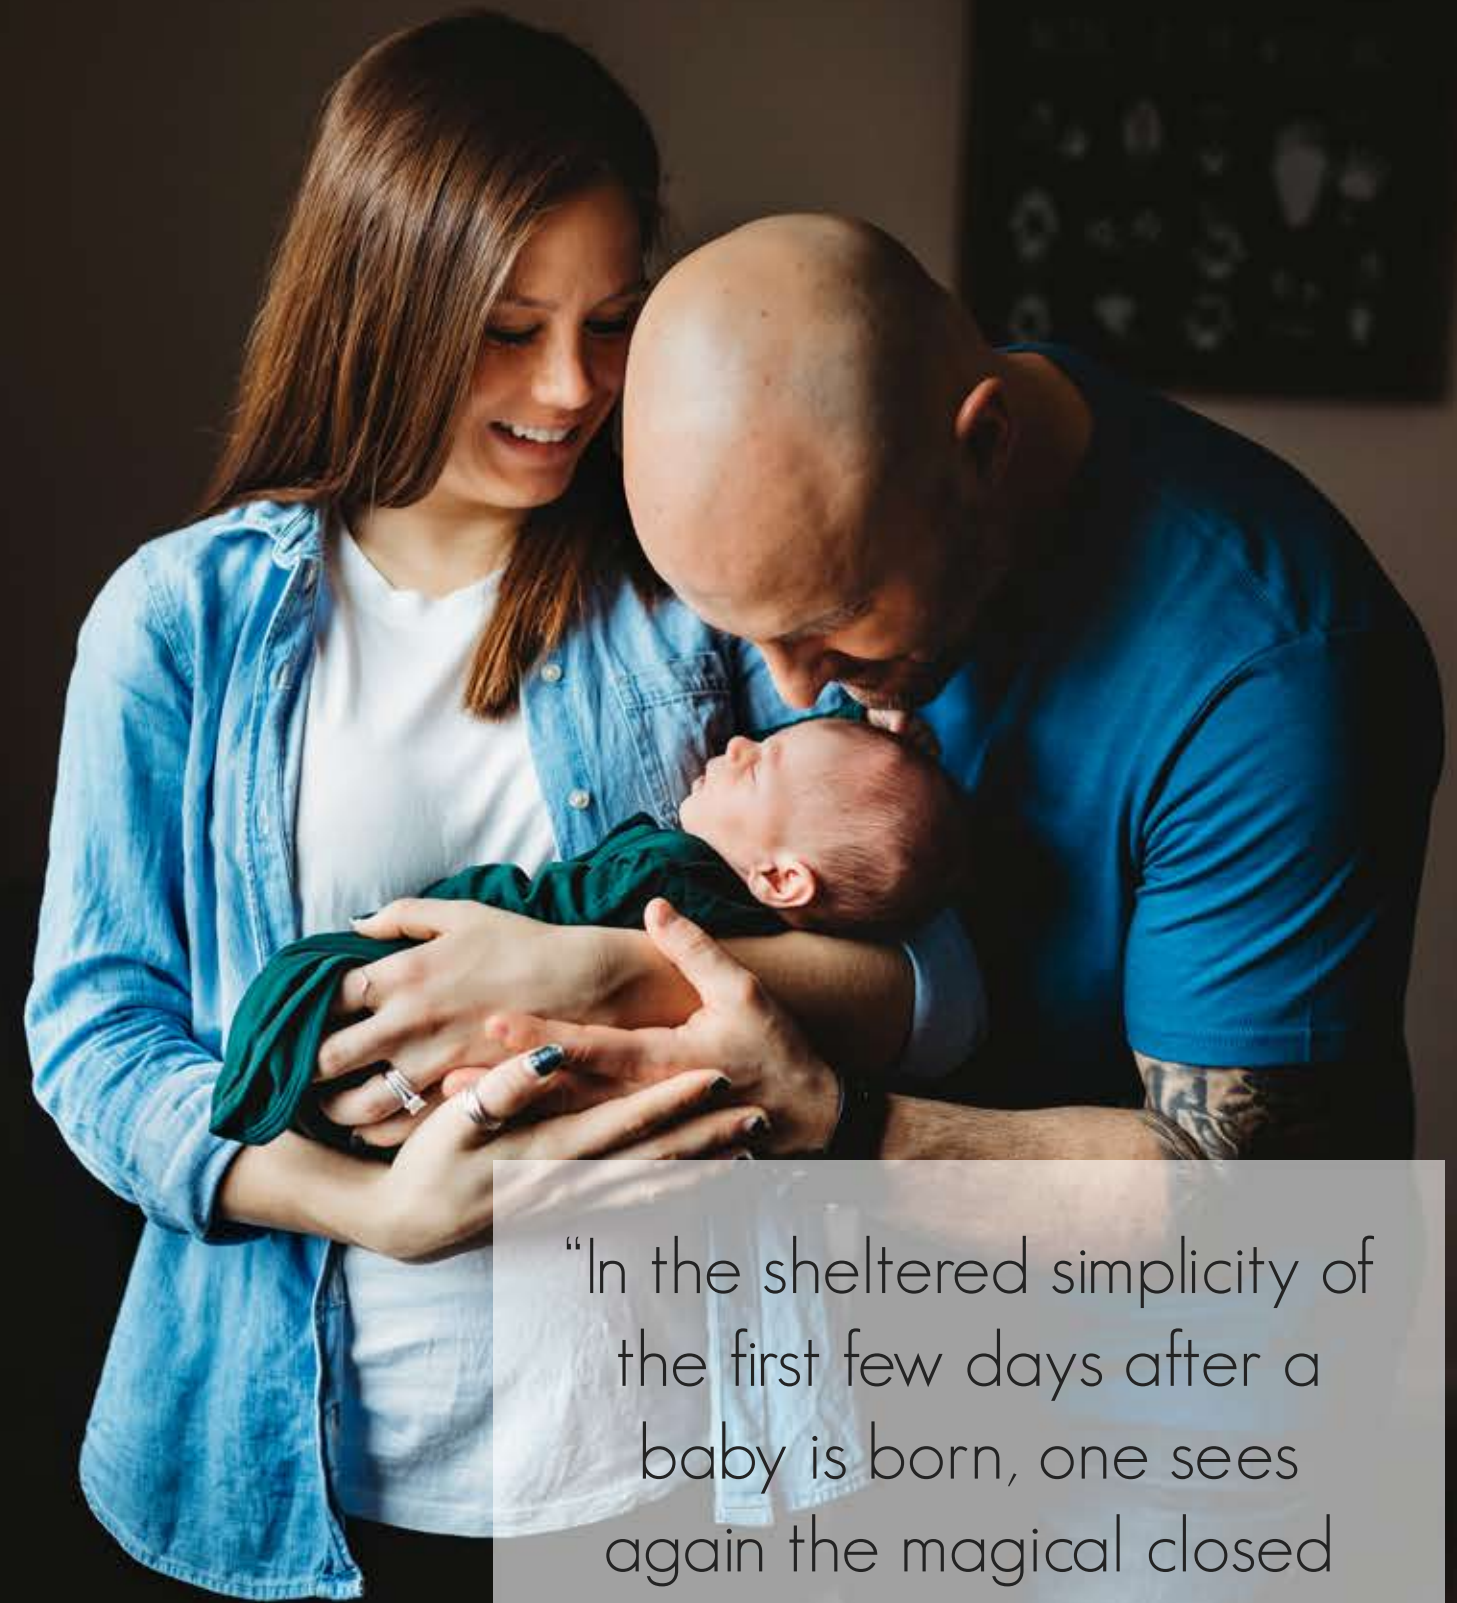

If you are reading this Welcome Guide, chances are you have already had an opportunity to view my work on my website, and that something spoke to you about my style. As a newborn photographer, I absolutely love capturing images that are raw, intimate and timeless.

I also consider my style to be 'relaxed portraiture'- in the sense that it is much more casual than some more traditional portrait photographers. If my style of photography resonates with you, then I just might be the perfect photographer for your newborn session!

LIFESTYLE PHOTOGRAPHY

In addition to portraits of your baby, I will also be photographing lifestyle images of your family. These are some of my favorite images, because they truly tell a story and capture the emotions and connection between you and your new baby.

“In the sheltered simplicity of the first few days after a baby is born, one sees again the magical closed circle, the miraculous sense of two people existing only for each other.”

- Anne Morrow

HOW DO I KNOW WHEN TO BOOK

My schedule fills up in advance (especially during busy seasons like the fall), so please get in touch with me as soon as possible to book me as your newborn photographer. I offer lifestyle newborn sessions, in the comfort of your own home! (Fresh 48 sessions are temporarily unavailable due to Covid-19 restrictions)

As soon as you have had your first appointment with your doctor and have a due date, then give me a call and let's get you on the calendar!

My favorite time to photograph newborns is when they are 5-10 days new (for lifestyle newborn sessions in the home). Once I have your due date on the calendar, I will pencil-in a couple of dates on my schedule - of course, leaving a little 'wiggle room,' as babies rarely arrive on their exact due date.

As we get closer to your due date, we will be in touch and then once baby actually arrives, I will have you or your partner call or text me to let me know,

LIFESTYLE NEWBORN

LOCATION **YOUR HOME 'STUDIO'**

Your newborn session will take place in the comfort of your own home. I've been told many times by parents that they appreciate this so much. In the first few days after baby is born, it can be tough to leave the house and get everyone ready for a photo shoot. Because the shoot takes place in your own home environment, you will be more relaxed and able to enjoy your experience!

I will bring everything needed for your session, and will set-up a mini portable 'studio' in a space that is close to a large window with beautiful natural light! I have a large assortment of baskets and blanket inserts that you will get to choose from!

FRESH 48

LOCATION HOSPITAL/BIRTHING CENTER

Your fresh 48 session will take place where you give birth!

Once you are home, your partner will keep you and the baby safe while you are home. My focus will be on capturing the moment and connecting of your family together with your brand new baby. I will be there to capture every detail, every expression, and every emotion, while you rest assured that you will have these memories to look back on for years to come!

I HOPE TO BE ABLE TO OFFER THESE AGAIN IN THE FUTURE!

PROPS & SUCH

I have a pretty minimalist style when it comes to newborn portraits - and so for me, less is more. I prefer to keep the focus on you and your baby, rather than use too many props that tend to distract from the subject.

I bring plenty of blankets and wraps for your baby, so you don't need to worry about providing any, unless you have one or two blankets or swaddles that you would like to incorporate into the shoot. I have a nice assortment of both traditional girls/boys colored wraps as well as a few gender neutral colors to choose from! We can chat about colors and choose wraps during our short consultation before your session begins.

Many of my clients also want to capture the special 'waiting' time before their new baby arrives. I love photographing that gorgeous glow of a momma-to-be as she is expecting and anticipating what her life will be like once her little miracle arrives!

You are bringing life into this world, and you are glowing!
