## FUN FACTS

June's full moon, the full Strawberry Moon, occurs on Tuesday, June 14<sup>th</sup>.

It is called the Strawberry Moon because it marks the ripening of "June-bearing" strawberries that are ready to be gathered. As flowers bloom and early fruit ripens, June is a time of great abundance!

We advise you remember to wash those fresh veggies and hope you haven't....

If you don't see Zack out and about reading meters or maintaining the system, we are happy to announce that he is taking over as the Plant Operator!  
**Congrats Zack!**
