

RESOLUTION - 14-01

BEFORE THE BOARD OF COMMISSIONERS OF
THE SOUTHWEST LINCOLN COUNTY WATER DISTRICT

WHEREAS, ORS 264.210 provides that a domestic water supply district shall have the power to do all acts and things which may be requisite, necessary or convenient in carrying out the objects of the district for exercising the powers conferred upon it: and

WHEREAS, there is presently a need to codify and revise the existing sub-division policies,

BE IT RESOLVED, That the Board of the Southwest Lincoln County Water District does:

1. Hereby adopt and declare to be effective immediately the attached Primary Water Line Installation policy, and
2. That all prior sub-division policies which conflict with the policies contained herein are hereby repealed.

DATED this 12 day of March, 2014

Chairperson

Secretary

Primary Water Line Installation
By A Property Owner and/or Contractor
SW Lincoln County Water District (SWLCWD)

Adopted – 12 March 2014

In addition to SWLCWD's 'Water Services, Fees, Rates, and Related Rules', the following requirements apply to a property owner and/or property owner's licensed contractor (installer) SWLCWD approved to install primary water lines. A primary water line is any line from a SWLCWD water source up to and including the meter.

1. A copy of the Lincoln County approved Plot Plan and any required State of Oregon Health Division approval shall be provided to the SWLCWD.
2. A copy of the development or partition engineering plan and any succeeding changes for primary water line installation shall be provided to the SWLCWD's Professional Engineer for review and preapproval prior to the affected work.
3. Existing water service easements shall be used if practical. If a new easement is required, SWLCWD easement filing forms shall be used. Each completed new easement form and a copy of affected property owner agreements shall be provided, before filing, to the SWLCWD for review and approval. The installer may file a new easement with Lincoln County only with SWLCWD approval. A copy of each recorded easement shall be provided to the SWLCWD.
4. **Work shall commence only with all necessary permits and engineering plans in place and written approval from the SWLCWD Field Superintendent.**
5. The installer of primary water lines is fully responsible for all costs of installation.
6. Work shall be done during normal and reasonable working hours and shall meet existing State of Oregon water service line standards
7. Materials used shall meet specifications and brands designated by the SWLCWD.
8. An eighteen (18) gauge copper tracer wire shall be installed with all underground pipe in accordance with SWLCWD specifications,
9. The SWLCWD Field Superintendent reserves the right to inspect work during working hours without prior notice.
10. For a period of one year from the date of SWLCWD acceptance of the installation, the installer shall be responsible for any necessary repair or replacement, including all related costs. This includes pipe, fittings, fire hydrants, valves and all other items related to the installation.
11. On the date of the SWLCWD's written acceptance of the installation, all installed primary water lines become SWLCWD property.
