## YEŞİLKÖY PROF. DR. MURAT DİLMENER PANDEMIC HOSPITAL

➤ The treatment units built with light steel structure system in the construction site of the Sahra Hospital, which was completed in Istanbul Yeşilköy, were completed in 16 days as 5900 M2 and 2100 M2 in two blocks.

**STEELUPRO**

**STEELUPRO**

Thanks to successful planning and process management, 500 m<sup>2</sup> of production per day was planned and delivered in full on time.

# STEELUPRO

Light steel ceiling and wall panels were assembled and sandwich panels were used as roof coverings. Corrugated steel sheet cladding as the outer coating of the structure.

Perfect working harmony of many different disciplines together.
