Model 110-D2

Welded stiffener reduces flex.

Threaded nut accepts sheet metal screw, positions glass in the door cutout & provides tamper-resistance from corridor side.

Two nails secure frame half into the door cutout significantly reducing installation time.

Fasteners hidden on corridor side.

Low profile provides less interference for exit hardware.

Fire-rated, tempered, impact-resistant, & more glass types available.

Additional pane of tempered, impact-resistant, & more glass types available.

Materials & Finish

1.75” or other door thicknesses

Frame outside dim=order size+2.5"

Door cutout=order size+1.5"

Order size is visible light

Glass=order size+.75"

Sheet metal screws included.

This frame may be installed with most fire-rated glazing material that has approval for conformance to ANSI/UL 10B, ANSI/UL 10C, NFPA 80, NFPA 252, or CAN/ULC S104. Contact AMS for frames intended for use with resistive glass.
