Model 110B

Fire-rated, low profile.
Use in place of Model 110 when screws & binder posts desired or when door thickness requires.
Maximum pocket is 1.125” in 1.75” door.

Materials & Finish
18 ga mild steel standard.
Galvanized or stainless steel available.
Extremely durable powder coating.
Beige, gray & dark bronze standard.
RAL & custom colors available.
Real wood veneer.

Glass=order size+.75”
Order size is visible light
Door cutout=order size+1.5”
Frame outside dim=order size+2.5”
Glass supports position glass in door cutout.

Fasteners pass through the door cutout. No need to drill through the door.
Low profile- less interference for exit hardware.

Fire-rated, safety-rated, leaded, & more glass types available.

Glass pocket does not require glazing tape or intumescent.* This reduces cost, simplifies installation, & improves appearance. *in most fire-rated applications.

Welded stiffener reduces flex.
Machine screws included.

**Order Size** = Inside Dimension of Frame
**Cutout Size** = Order Size + 1 1/2”
**Glass Size** = Order Size + 3/4”
**Glass Tolerance** (+0”/-1/16”)

**Glass Tolerance:** (+0/-1/16”)

**Glass** (available in complete lite kit or for purchase separately)

**Steps to Install**

1. Make door cutout 1½” larger than order size (inside dimensions).
   **For Steel Doors:** Refer to door manufacturer’s installation instructions. If approved to use a clip system, refer to Pg 2. Otherwise reinforce the cutout per your UL/WHI procedure or follow the AMS procedure on Pg 2.

2. Place (2) **Frame & Glass Supports** on the bottom of the cutout - avoid screw locations.

3. Set glass and frames as shown above. **DO NOT OVER-TIGHTEN SCREWS.** Uneven tightening or over-tightening can cause glass breakage.

**NOTE ON GLAZING TAPE:** Some types of glass & some very large frames require glazing tape. Scan the QR Code (right) or visit www.allmetalstamping.com for a listing of approved glazing, fire ratings, or additional installation requirements such as tape or intumescent.
Standard Finish: Beige, Gray, or Dark Bronze polyester powder coatings. These coatings are tough, corrosion resistant and provide a very durable surface. Special colors are lacquer, industrial enamel, or powder coatings dependent on color.

Top Coating Fire Door Hardware: Many top coats have good compatibility with powder coatings. Exceptions are some enamels, many latex, and water based paints. It is necessary that the surface be thoroughly sanded prior to the application of any top coat. Make sure the surface is clean and dry. To ensure compatibility, test paint a small area on a non-visible portion of the product and check for proper adhesion before proceeding. Final finish of the product is the responsibility of the purchaser. We do not warrant the suitability of the product for any particular application.

Installation Instructions
Hollow Metal Door Clip (24 Ga. Galvanized Steel)

Refer to door manufacturer's installation instructions. If approved to use a clip system follow those instructions as to the number of clips required.

Minimum Requirements
A minimum of 1 clip per side - centered.
Any side over 50" requires 2 clips per side evenly spaced.

Door Thickness: 1¾" Doors ONLY.

AMS Part No.: 1175-A08

Installation Instructions
Hollow Metal Door Perimeter Channels (18 Ga. CRS)

1. Cut top, bottom, and side channels the same length as the cutout dimensions.
2. Install channels by tapping into the opening until channels are flush with cutout.
3. Tack weld into place.

LIMITED WARRANTY: ALL METAL STAMPING, INC. WARRANTS ALL DOOR HARDWARE TO BE FREE FROM DEFECTS IN MATERIALS AND WORKMANSHP. Purchaser assumes responsibility to verify and determine that color, finish, and quality of materials will meet required specifications. No claim shall be allowed unless Purchaser gives notice to manufacturer within 30 days from the date materials are received. If color match, finish quality, or glass and cutout fit are not satisfactory, DO NOT INSTALL. UPON INSTALLATION THIS WARRANTY ENDS. Manufacturer's only obligation shall be replacement, refinishing, or refund of the original purchase price, at our option. THESE ARE THE EXCLUSIVE REMEDIES PROVIDED, AND ALL METAL STAMPING, INC. SHALL NOT BE LIABLE FOR ANY OTHER DAMAGES, INCLUDING ANY OTHER DIRECT, INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES. This warranty does not apply to door hardware which has been abused, altered, improperly installed, used with incompatible or inappropriate components (EX. Oversized Glass), exposed to corrosive environments, or environments for which the product is not intended. No material shall be returned without prior authorization. This warranty extends only to the original Purchaser who is buying the hardware from All Metal Stamping, Inc. for purposes of resale or use in the ordinary course of their business.
