Model 110B-D1
Low profile, holds 2 pieces of glass, separated by spacer. Use in place of Model 110-D1 when screws & binder posts desired.

Welded stiffener reduces flex.

Materials & Finish

Fasteners pass through the door cutout. No need to drill through the door.

Low profile provides less interference for exit hardware.

Tamper-resistant binder post on corridor side.

Tempered, impact-resistant, & more glass types available.

Glass supports position glass in door cutout.

1.75" or other door thicknesses

Frame outside dim=order size+2.5"
