STANDARD PRINT SIZING

Suggested Print Sizes & Guidelines

***PLEASE NOTE:** Standard sizing is dependent on logo, garment fabric, and style. If you need a specific size, please speak with your sales rep as we will need to see a physical piece prior to production.

SNI Policy

SNI Printing Spoilage & Return Policy

Decoration orders are subject to a 2% spoilage rate per production event. Please read the entire policy so that you clearly understand our policy.

Spoilage

SPOILAGE RATE: While every attempt is made to produce perfect orders every time, screen printing and embroidery is an industrial process and hence is prone to some level of error. In accordance with industry standards, Simply Brand It is not responsible for loss of product within this 2% deviation per production event (Min 2pcs).

It should be noted that the actual spoilage rate of garments at Simply Brand It is considerably lower than 2%.

MANUFACTURER SPOILAGE: Spoilage rate is based on production events only. Manufacturers defects on customer supplied goods should be addressed with the manufacturer. Manufacturer defects that are noticed prior to printing will not be printed. It is entirely possible due to the method that garments are loaded on decoration equipment that manufacturer defects will not be noticed before printing, or at all.

Quality Returns

Simply Brand It does not accept returned goods without prior approval. Because quality printing and embroidery is considered to be subjective, it will be necessary that any returns be inspected prior to any financial decisions being made.

Returns or Discounts may be offered after evaluating the quality of our embellishments. Simply Brand It management team has sole authority and discretion about quality in these matters.

Reimbursements or replacements: see below policy.

REIMBURSEMENT or REPLACEMENTS:

Reimbursements or replacements may be issued up to the amount of the original invoice for the same order.

Replacements above and beyond the original invoice may be approved by management, and will be applied as a credit towards your account.

Considerations will be given to the amount of time our team had to prepare the order (turn time) and to the accuracy of the information provided by the customer.

Accurate and legible purchase orders must have been originally supplied for most returns. Changes to purchase orders must be made in the form of a new purchase order. You should acquire confirmation of purchase order changes via your most recent proof. Submitting an email or verbal changes does always mean that your order has been changed. The Proof approved is the final confirmation and orders will be printed as per this approval.
