RESIDENTIAL WARRANTY SERVICES, INC.

The **18 Month Warranty** by Residential Warranty Services represents the **broadest coverage** available today. When your Certified Inspection Expert provides a full home inspection, your property then qualifies to get an additional 6 months of warranty coverage, when you purchase the 12 month policy. In fact, if you are ever denied coverage for a claim, that can be verified eligible by any other contract we will either cover it, or give you 100% of your premiums back. Pricing is based on a simple square footage system, and you'll never experience any upcharges.

With Residential Warranty Services, you are simply covered.

Please contact your inspector about how to get the additional 6 months of coverage with a full home inspection.
