A minimum of a \$10,000 deposit is required to begin renovating an RV for you, the deposit amount may vary depending on what kind of RV you are looking for. We would rather find and buy the RV for you because we know what to look for regarding water damage and other possible issues with used RV's. We also search for the best deal and are willing to drive hours to buy the right RV. If you have seen a past renovation of ours there is no guarantee that the price will be the same due to the market and price of used RV's. By signing this questionnaire, you are agreeing to these terms but also are aware that this document is not a contract. No agreement between parties has been made until a deposit has been received and a contract has been signed. The completion of this document puts your name on a renovation waiting list, you can remove yourself from the list at any time prior to the payment of your deposit. We will let you know where you are on the list and when we expect to need your deposit payment.
