#### 氫燃料電池的工作原理 (How Hydrogen Fuel Cell Works)

在本文中，我將解釋聚合物電解質膜或PEM燃料電池簡稱氫燃料電池的工作原理。氫燃料電池將水中的氫和氧分解，通過使用PEM將電子引導到電極來聚集反應中產生的電子進而產生電力。由於電流通過水而引起的化學反應，將水分解為氫氣和氧氣。化石燃料在燃燒時會釋放二氧化碳，與或化石燃料相比，氫燃料電池是一種非常清潔的發電方式。然而，目前氫燃料電池的效率低，需要改善效率，以有效地普及使用。

In this article, I will explain how a polymer electrolyte membrane hydrogen fuel cell, or PEM fuel cell, works. Polymer electrolyte membrane fuel cells combine hydrogen and oxygen into water, capturing the electrons from the reaction by using the PEM to redirect them to the wires. Water is separated into hydrogen and oxygen from a chemical reaction caused by running an electric current through the water. Hydrogen fuel cells are a cleaner way of producing power than fossil fuels, which release carbon dioxide when burned. However, the efficiency of hydrogen fuel cells is low, and needs improvement to be effective for public use.

#### 不同種類的鳥 (Different Types of Birds)

世界上有各式各樣的鳥類，這些不同的鳥都有自己的獨特之處。像獵鷹這樣的鳥，有很大的爪子和短而尖的喙，可以抓到像魚的獵物。成熟的獵鷹有柔軟蓬鬆的羽毛。另一方面，蜂鳥有一個細長的喙，可以喝花蜜，而雄性通常有鮮艷的羽毛。還有像貓頭鷹的喙比較短，可以抓住老鼠和其他小的動物，而它們的翅膀則非常安靜，以確保它們的獵物不會聽到它們的聲音。

所有不同的鳥類，都有不同的才能和不同的特性。這些鳥兒們有不同的作息時間和生活在不同的地方。所有的鳥都有自己特有的專長和生存方式。

There are a variety of different birds in the world such as: falcons, owls, hummingbirds, and sparrows. These different birds are all unique in their own way. Such birds like falcons have big claws and short but sharp beaks to catch things like fish; and when mature, they have luscious fluffy feathers. Hummingbirds on the other hand have a long and narrow beak to drink nectar, and the male hummingbird normally has a bright colored coat of feathers. Owls on the other hand have shorter beaks to grab mice and others and their wings are so silent it's guaranteed their prey (mice) won't hear them. See? All different birds have different talents and different characteristics. The birds are all seen at different times of day, found in different locations, and grow to different sizes. All the birds have their own way of doing things and their own way of surviving.

**中文不好的殺手 (The Hit Man Whose Chinese Wasn't Very Good)**

我今天要講一個笑話，有一天老王正在遛狗，突然有一個殺手從草叢裡鑽了出來。“碰!碰!” 兩槍，把他的狗打死了。老王大怒：你為什麼殺我的狗？殺手冷笑一聲：嘿！有人花五百萬，叫我取你的狗命！

老王看了一眼殺手，激動地握住他的手說：你的中文老師是誰？祝他教師節快樂！

Today I am going to tell you a joke. One day as Lao Wang was walking his dog, a killer suddenly jumped out from behind a bush.

"Bang! Bang!" Two shots rang out, killing his dog. Lao Wang was furious, "Why did you kill my dog?"

The killer sneered, "Heh heh! This guy paid me five million dollars and told me to take your dog's life\*!"

Lao Wang glanced at the killer, shook his hand excitedly and said, "Who is your Chinese teacher? I'd like to wish him a Happy Teacher's Day!"

\* In Chinese, the phrase "gou3 ming4" actually means "worthless life," but literally translates to "dog's life."

**返校的第一天 (My First Day of School) / 我的生日(My Birthday)**

暑假後返校的第一天是八月十九日。那天在早上五點鐘我就醒了。因為我很興奮，我等不急要看看我所有的新朋友。我們鑽進汽車先去浩寬的學校Oak Meadow，我們和他在那兒照了一張相片，接下來，我們去我的學校。爸爸和我一起走進學校，那是很有趣的一天。

我的生日是七月十二日，那時候我正在加州，我們去了Arboretum。那兒有很多孔雀，牠們非常漂亮。我們在咖啡館看到了一隻孔雀開屏，很漂亮，非常驚喜。在這之後，我們回到表哥家，吃了生日蛋糕。真是一個快樂的生日。

Principal, teachers, fellow students, and parents. Hello everybody, my name is Zhen-Zhu Ng. Today I will tell you about my first day of school and my birthday.

The first day of school was August 19. I woke up at 5:00 am because I was very excited. I couldn't wait to see my new friends. We got into the car and drove to Hao-Kuan's school Oak Meadow and took a picture with him. Then, we went to my school Bradley Middle School. Daddy walked me into the school. It was a really fun day.

July 12<sup>th</sup> is my Birthday. We were in California at the time. We went to the Arboretum where there are a lot of beautiful peacocks. We were at the Cafe when we saw a peacock with his feathers open. It was amazing and I really liked it. After that, we returned to my cousin's house and ate birthday cake. It was a very happy birthday.
