- **Lemongrass**
- **Thai Chilis**
- **Garlic**
- **Sunflower Oil or
Peanut Oil**
- **Soy Sauce**

Many people understand red rice to be a healthier rice option, similar to brown rice.

Red rice contains magnesium and can help improve one's oxygen circulation. It's also a great source of fiber. The flavor may be considered more sweet or nutty than regular white rice. It takes longer to cook.

There are many Thai stir fry recipes that call for red rice. Some call for soaking the rice for two hours prior to cooking.

Here's one recipe for "Stir-Fried Red Rice with Thai Flavors from Go Healthy Ever After: <https://www.gohealthyeverafter.com/fried-red-rice-thai/>

The Keene International Market also carries Thai glutinous rice, black cargo rice, and brown rice.
