

The background is a stylized green landscape. On the left and right sides, there are large, rounded green trees. In the center, there are light green mountains. Two white birds with long necks and legs are flying. One is in the upper right, and the other is in the lower left, both with wings spread. The overall color palette is various shades of green, with some white and light blue accents.

Urban Ecology Research Internship
Summer 2025

CAVEN POINT

LINCOLN PARK WEST

UNIQUE SIGHTINGS

Double-crested
cormorant close-up

Male & female blue crab

Liam's Osprey sighting

Common Loon

Juvenile yellow-
crowned night
heron

MICROPLASTICS DAY

Thank you Alison Cucco for
providing this demonstration!

NON-AVIAN FLORA AND FAUNA

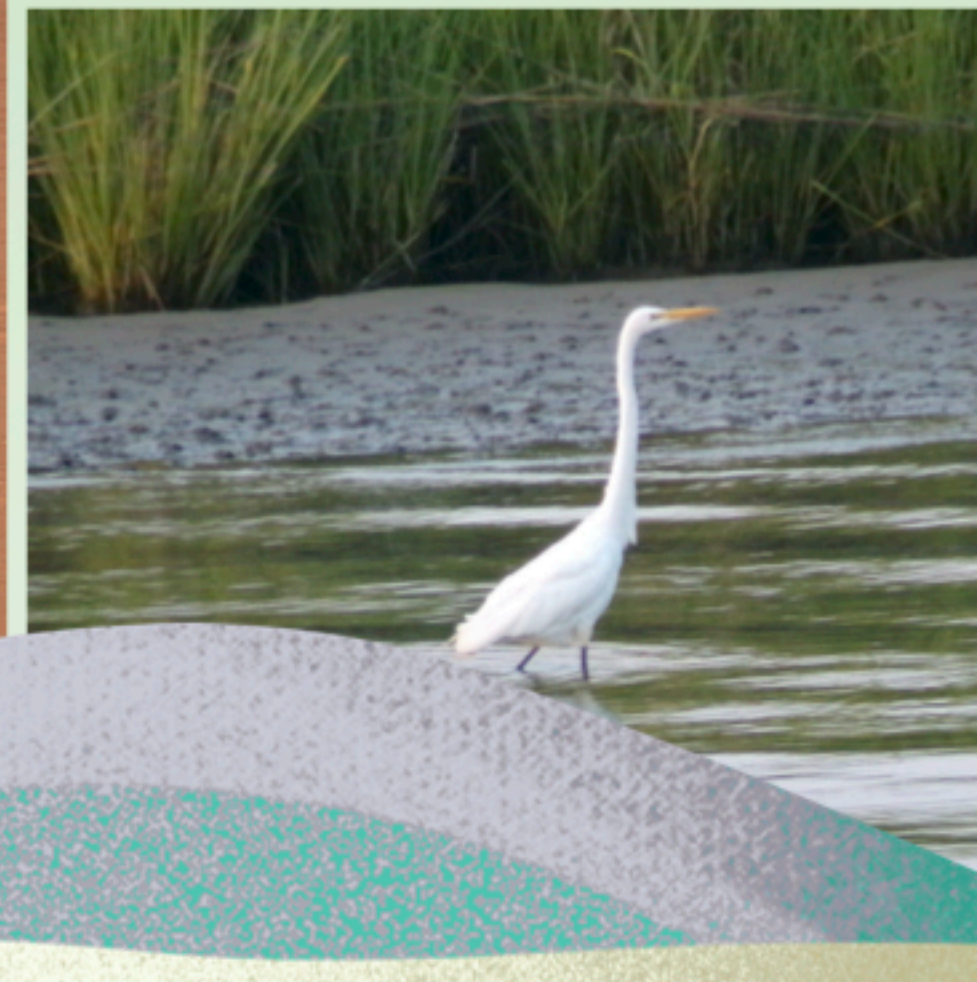

BIRD SPOTLIGHT: TREE SWALLOW

Tree Swallows were seen throughout the two locations, commonly found nesting in the boxes Lorraine set up in Lincoln Park West!

BIRD SPOTLIGHT: GREAT EGRET

Great Egrets are some striking birds
that one will never get tired of seeing!

BIRD SPOTLIGHT: GREAT BLUE HERON

Not to be confused with the Great Egret!
