

Equipment Rental Program

Carlton SWCD has farm equipment for landowner use!

Call Ryan Clark at (218) 451-6118

Carlton Soil and Water Conservation District (SWCD) has equipment available for rent. Rental rates for the Great Plains No-Till Drill Interseeder are \$12 per acre and the Brillion Seeder are \$10 per acre with a minimum rental fee of \$70. These can be used for interseeding new species into an existing hay field, a complete field renovation, or even for planting small grain and soybean. We also have cost-share opportunities for no-till and cover crop practices depending on the situation to help offset the cost of renting. For more information or to be added to the equipment rental schedule, call Ryan Clark or fill out an online request form at <https://carltonswcd.org/landowner-resources>
