

Equipment Rental Program

Carlton SWCD has rental equipment for landowner use!

Call Alyssa Bloss (218) 384-3891 Ext 1

The Carlton Soil and Water Conservation District (SWCD) has equipment available for rent to use on land in Carlton county and neighboring counties. Rental rates for the ATV 20 Gallon Fimco Herbicide Sprayer is \$50 per use. This 20 gallon herbicide sprayer works best at 20psi. When mounted on the boom sprayer, it will eject 60 oz (0.46 gallons) per minute. Driven at 3mph, this will deliver 21 gallons per acre. When boom is set at 18" high, it will spray a 3' wide strip. Renter is required to triple rinse the tank and run water through the nozzles at the end of each use. Return the tank cleaned and drained with the tubing run dry. It is critical to follow local, state, and federal regulations and to follow the herbicide label. For more information or to be added to the equipment rental schedule, please call Alyssa Bloss or fill out an online request form at
