

2022 PRAIRIE SEED MIXES

Buckthorn Replacement Mix (\$40)

Description:

Plant after buckthorn removal! After buckthorn seedlings are managed, this quick establishing, semi-aggressive mix helps combat buckthorn seedlings wanting to return. It also restores the site back to native species. After buckthorn seedlings have been managed, you can enhance mix with native flower seed. This perennial mix is formulated for dry to most soil conditions. Consider pairing with Buckthorn Replacement Native Plant Kit. Up to 3 feet tall.

Species:

9 species of native perennial native grasses and sedges: Side Oats Grama, Canada Wild Rye, Bottlebrush Grass, Silky Wild Rye, Virginia Wild Rye, Switchgrass, Eastern Woodland Sedge, Long Beaked Sedge

** A cover crop will also be provided with seed mix depending on what season you will be seeding (Spring, Summer, Fall) Choose season when ordering on website.

Quantity:

Covers up to 500 square feet

It is recommended to mix with sand or sawdust to disburse seed.
