## REA Dissolution Update for Tomahawk Members

March 5, 2026

Dear Tomahawk Members,

We hope this message finds you well.

The TREA Board of Directors is pleased to inform members that the outstanding arbitration with Battle River Power Co-op, TREA's former operator and RRO provider, has now been concluded.

Due to the confidential nature of the arbitration process, specific details cannot be disclosed. However, the Board is pleased to report that we are satisfied with the outcome.

Further, in accordance with the contract agreement related to the sale of the REA, FortisAlberta has ensured that TREA remains whole throughout this process. As a result, TREA will not be required to use reserve funds to make any additional payments to Battle River.

We anticipate that final accounting and the formal wind-up of the association will occur soon.

We will continue to keep members informed as the wind-up process progresses.

If your mailing address, phone number, or name has changed since 2024, please get in touch with our office at **780-514-8732** to update your information.

Sincerely,  
Tomahawk REA Board of Directors
