THE “NOT NOW” DECLARATION

To All State GOP Chairs:

I would like to thank Georgia GOP Chair Josh McKoon for helping us get out this important information.

On October 30, 2008, Senator Barack Obama declared, "We are five days away from fundamentally transforming the United States of America." In the intervening years, myriad actions have been taken that have had that effect, possibly permanently.

These changes include: opening our borders; adopting Obamacare; weakening our military; undermining election integrity; underwriting and otherwise empowering and emboldening the Chinese Communist Party (CCP); hollowing out our energy security, ostensibly to prevent “climate change”; devaluing the dollar and endangering its status as the world’s reserve currency; promoting policies like abortion, cultural Marxism and transgenderism that afflict and break apart America’s families and ravage our society; and permitting fentanyl to kill tens of thousands of Americans annually.

The individual principally responsible for promoting the China Model here and elsewhere in the world was the Director-General of the World Health Organization (WHO), Tedros Ghebreyesus. He is not a medical doctor. He is an Ethiopian Maoist selected for the job by the Chinese Communist Party and is dutifully serving as their puppet. He serially lied about the COVID-19’s origins, nature, and the appropriate means of dealing with it. With help from equally dishonest enablers inside the U.S. government, his *recommendations* were implemented in the United States disastrously.

Incredibly, the Biden administration seeks now to reward Dr. Tedros for such malfeasance by stealthily surrendering to him unprecedented power and our national sovereignty. He will hold diplomatic immunity, there will be no court to present challenges to his decisions, and he will have total control of the budget within a system yet to be defined. He will have complete dictatorial powers over all nation-states healthcare systems and will, in essence, become the most powerful man in the world.

In fact, the Chinese Communist Party and other proponents of this unprecedented concentration of power describe it as “global governance”. Once approved it will be the beginning of the World Economic Forum’s “One World Government” and will be a structure clearly at odds with and incompatible with our system of limited, representational, and accountable government under our U.S. Constitution.

No one who claims to support “democracy” – let alone to be committed to *defending* it – can favor this plan to let an unelected, unaccountable foreign bureaucrat dictate U.S. public health, especially without the voters’ knowledge or agreement.

That is especially true given Tedros Ghebreyesus' record of incompetence and malfeasance, his totalitarian, Marxist background and what he has already expansively described as public health emergencies of international concern (PHEIC). Among those are: "climate change," reproductive rights, transgender rights, poverty, instability, migration, disruptive social viewpoints (MAGA?) and "gun violence." The possibilities are endless, as he will not have any constraints. It is predictable that Dr. Tedros' prescriptions for contending with such emergencies will not be compatible with our constitutional rights, values, or national interests. On the contrary, for the sake of our National Security, we must anticipate he will be a willing participant in China's ceaseless "Unrestricted Warfare" efforts to destroy the United States and assist China in securing their stated objective to achieve worldwide hegemony by 2049.

For all these reasons, this is clearly not the time for the United States to fall prey to the Biden administration's and the World Health Assembly's attempt to jam through World Health Organization treaties. The push for a vote is about to become a Nancy Pelosi moment: *"You'll have to pass the (amendments) to find out what's in (them!)"* – but this time it will be at the cost of our state's and national sovereignty.

When President Trump was in office, he was right to announce the United States' withdrawal from the World Health Organization. He was also correct in announcing that, following President Biden's termination of that action, he will take us out of the WHO when he returns to office. In the meantime, these grievously defective treaties must not be approved and allowed to become binding on the United States and other freedom-loving nations.

We believe that every political leader who has taken an oath of office to "support and defend" the U.S. Constitution – and everyone who aspires to do so – must join us in saying **"Not Now"** to the consideration and approval of the two WHO treaties.

Therefore, as the Chair for your state's GOP, please join this fight and use your position to inform and move your citizens, elected and appointed officials to action. Our objective is to make this an election issue by shedding sunlight on what is the most consequential threat to our country today. By doing so we will force the Democrats to defend their indefensible position of knowingly giving away our State's sovereign rights to manage their own healthcare systems to unelected, unaccountable foreign bureaucrats. We do not have a lot of time, as the treaty proponents are seeking to push it through by May 27, 2024. Your immediate attention is required. The good news is there is a great swell of activity in the making as I write and the momentum about to emerge will be amazing.

As Chair, you play a very important role in this effort.

Your [CALL TO ACTION](https://state-shield.org) includes, but is not limited to:

<https://state-shield.org>

- Issue a Resolution at your State Convention ([link here](#)) calling for the deferral of action on the treaties and the need to require Senate approval;
- Send a Letter of Declaration ([link here](#)) to every state elected official and appointed official, to include but not limited to:
 - Governor, Lt. Governor, House and Senate Leadership, Attorney General, Secretary of State, Solicitor General(s), Public Health Director, Homeland Security... add others!
- Send the Letter of Declaration to every County Chair and ask they repeat the above...
- Send the Letter of Declaration to members of the GOP National Leadership including, but limited to:
 - the RNC, each member of the House of Representatives and the Senate, and President Trump...
- [Request your AG consider action](#) including:
 - Issuing an 'Advisory Opinion'- [Foundation found in the TX, OK vs HHS 2022](#)
 - Filing suit against President Biden demanding: [THE PROPOSED WHO TREATY MUST BE SENT TO THE SENATE FOR RATIFICATION](#)
- Initiate a debate platform before May 27th to educate your citizens and the media
- Maximize media attention and constantly make this an election issue.
- Review these additional resources:
 - [WHO Background](#)
 - [WHO Further Insights](#)
 - [WHO Talking Points](#)
 - [WHO – Eight Items of Concern](#)

Again I would like to thank Josh McKoon, Georgia GOP State Chair, for his strong contributions in preparing this Call To Action. If you have any questions or suggestions, please feel free to reach out to me.

Patriotically yours,

Joe Gebbia, Sr.

“Not Now”

on the Surrender of Our Sovereignty to the WHO

Dear _____,

I am writing this letter to express my deepest concern for the long-term welfare and sovereignty of our country should the WHO pass the either or both of the updates to the Amendments and the Pandemic Treaty. At the end of May, President Biden intends to join other nations in supplanting our Constitution and the liberties it guarantees with something called “global governance.” Their plan, which has been stealthily negotiated for several years at the World Health Organization (WHO), would permit no informed debate – let alone require the approval of the American people with regard to turning over to Tedros Ghebreyesus, the WHO’s Director-General, the exclusive responsibility to decide when we have a “public health emergency of international concern” and what we *must* do about it.

We have already had a taste of what such a surrender of our sovereignty would entail. Even though Dr. Ghebreyesus is not a medical doctor, he was allowed to prescribe what the United States and every other nation ought to do in response to the COVID-19 pandemic. And his advice – which was to mask up, lock-down, take mandatory jabs with experimental and inadequately tested “vaccines” and worked to deny us the beneficial effects from harmless early treatment drugs like hydroxychloroquine and Ivermectin – proved *disastrous*. By several estimates, a million Americans who contracted COVID-19 needlessly died because of Ghebreyesus’ malfeasance.

Clearly, it would be insane to give this Maoist foreign bureaucrat, who was selected for his job by the leader of the Chinese Communist Party, the power to dictate public health policy in our country. But that is what will happen if two treaties now being finalized are put to a vote by the World Health Assembly in just a few weeks’ time. We need your help to prevent that from happening under present circumstances and to preserve our sovereignty and your medical freedom.

Join us in telling President Biden: **“Not Now.”** The vote on the two treaties scheduled for the May 27 to June 2 World Health Assembly must be delayed. Final drafts should have been circulated on January 27, yet the final texts are still being negotiated with only a very short time remaining before the vote. We demand action **Now** to ensure we are not bound to a “global governance” arrangement without an informed national debate about these two, deeply problematic treaties and absence of the U.S. Senate fulfilling its Constitutional duty to advise and consent on these agreements. The cost of not having

ample time to truly understand the consequences of approval could be devastating to every State in our Nation. It could lead to the loss of our sovereign right to manage our own healthcare system by forcing us through treaty agreements to yield to decisions made by unelected, unaccountable foreign bureaucrats.

This is unacceptable. The consequences are dire. ***“Not Now”!***

Respectfully,

RESOLUTION REGARDING THE WORLD HEALTH ORGANIZATION

A Resolution on Combatting Chinese Influence – World Health Organization

In the year of our Lord 2024

IN THE [LEGISLATIVE BODY] FOR THE STATE OF [STATE]:

A RESOLUTION, Urging the United States Government to Oppose Further Enabling the World Health Organization; and for other purposes.

WHEREAS, the World Health Organization (“WHO”) has proven itself to be a corrupt organization that has hampered worldwide public health efforts; and

WHEREAS, WHO has a history of mismanagement and scandals, including the coverup of severe sexual abuse by its staff in the Democratic Republic of the Congo following an Ebola viral outbreak there; and

WHEREAS, WHO is an opaque organization unaccountable to the United States government despite receiving between \$200 and \$600 million annually in US taxpayer subsidies over the past decade; and

WHEREAS, WHO as an organization has chosen to place in positions of leadership on its Executive Board representatives of such extreme authoritarian regimes as the People’s Republic of China, the Democratic People’s Republic of Korea, the Syrian Arab Republic, and Belarus, in complete disregard of the human rights abuses regularly committed by these regimes; and

WHEREAS, at the beginning of the 2019 Covid (SARS-CoV-2) outbreak and throughout the pandemic, WHO officials were complicit with the government of the People’s Republic of China in preventing international understanding of the virus and its effects and in covering up its origins, thereby increasing the severity of the pandemic and its death toll; and

WHEREAS, WHO is currently in the process of drafting new International Health Regulations and a proposed Pandemic Preparedness Treaty that will further expand the organization’s authority and empower unelected international bureaucrats through a “One Health” mandate to override national sovereignty in areas including energy, agriculture, climate, and public health; and

WHEREAS, granting WHO such authority would empower authoritarian regimes, contribute to the theft of intellectual property, and erode the sovereignty of western democratic nations in favor of an international technocracy that would have the power to dictate to sovereign and free nations policies ranging from pandemic response to climate control, threatening western liberal democracy; and

WHEREAS, the United States has its own Centers for Disease Control and Prevention to address issues of domestic and international public health and disease preparedness,

which organization is accountable to the people of the United States and their elected representatives;

THEREFORE, BE IT RESOLVED by the [LEGISLATIVE BODY] of the State of [STATE] that the members of this body urge the Representatives and Senators elected by the people of [STATE] to take all steps necessary and reasonable to end permanently taxpayer funding of the World Health Organization; and

BE IT FURTHER RESOLVED that the members of this body encourage the President of the United States and his foreign policy officials to reject the creation of any policy, law, convention, or regulation, whether through amendments to the International Health Regulations or through the drafting of an international agreement regarding Pandemic Preparedness, that would in any way further empower this ineffective and corrupt World Health Organization; and

BE IT FURTHER RESOLVED that the members of this body encourage the United States Government and its representatives to take measures ensuring the fundamental freedoms of the American people against the corrupting influence of international organizations such as World Health Organization that, all too often, are under the influence of authoritarian foreign regimes that do not act in the best interest of the United States; and

BE IT FURTHER RESOLVED that [STATE], acknowledging Article Ten of the Bill of Rights of the United States Constitution, hereby reasserts its claim to state sovereignty over its natural healthcare management, and that the Federal Government, whether acting under any of its agencies or in relations with the United Nations and its agencies such as the WHO, does not have the right to deprive [STATE] and its citizens of such control.

BE IT FURTHER RESOLVED that the [Appropriate State Official] is hereby authorized and directed to make appropriate copies of this resolution available to the public and the press.

SO RESOLVED THIS THE _____ DAY OF _____, 2024.
