

May Newsletter

Bonjour communauté de l'école!

As spring blooms around us, we're excited for a month full of growth and activity. Teachers are currently conducting midterm academic evaluations. These evaluations offer valuable insight into your child's developmental progress and growth. This information will be shared during Family Conferences on May 12. This is a great time to discuss your child's progress and goals.

Mark your calendars—Family Fun Day is June 6, and our Kindergarten Continuation Ceremony will be held on June 11. We can't wait to celebrate with you!

Looking ahead, our Summer Program will feature hands-on learning and field trips—now made possible with the exciting purchase of our very own school bus! This allows us to make field trips a regular part of our curriculum moving forward.

Thank you for your continued support. Our open-door policy is always in place, and we welcome your thoughts, questions, and conversations.

*Meilleures salutations
Tamara*

Explore The Five Senses!

This month, our students will dive into the wonderful world of the five senses—sight, sound, smell, taste, and touch! Through fun, hands-on activities, stories, songs, and experiments, children will explore how their senses help them learn about the world around them. From smelling flowers and tasting fruits to listening to nature sounds and feeling different textures, May will be a month full of discovery and sensory adventure!
