

GlutenTox® SticksPlus

**GLUTEN
FREE**

Quick and Reliable

GlutenTox® Sticks Plus is a rapid gluten detection kit for food and drinks but also for working surfaces. GlutenTox Sticks contains the G12 anti-gliadin antibody that specifically recognizes the most immunogenic fraction of gluten that triggers a reaction in those with celiac.

GlutenTox® Sticks Plus advantages:

- » Detection limit 3 ppm (<20 ppm is considered “gluten free”)
- » Determination of gluten in all kinds of foodstuffs
- » Specific to the toxic fraction of gluten from wheat, barley, rye and some rare varieties of oat
- » No cross-reactivity with soy, rice or corn

**GLUTEN
DETECTED**

GlutenTox Sticks Plus is a **practical tool** for the control of gluten content in your food products.

Each kit contains 25 tests to perform gluten analysis.

Industrial applications

- » Semi-quantification of gluten in food
- » Gluten-free food quality control
- » Trace gluten contamination in food and working surfaces
- » Monitoring of gluten-removal
- » Implementation and fulfillment of HACCP, ISO 22000, BRC, and IFS compliance
