

Transforming Social Work Efficiency.

November 2024.

Tymscales is a Social Care Solution that enables Social Workers to consistently work within statutory timescales.

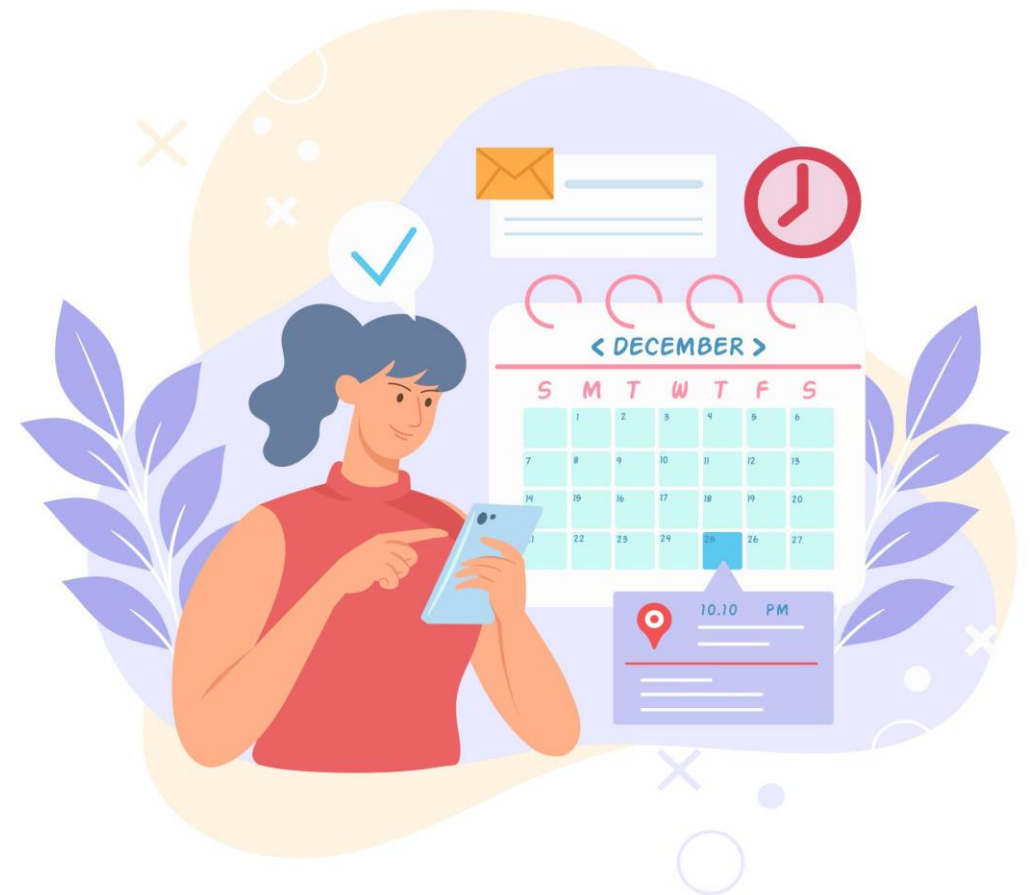

Tymscales provides timely reminders, tracking and updates, helping Social Workers to work effectively and manage their cases within statutory timescales.

Tymscales give Social Workers greater awareness and control of their case tasks, helping them to be more in control, work in time and avoid statutory actions becoming overdue.

About Tymsscales

Tymscales is dedicated to empowering social workers by providing tools that enhance their organizational skills and efficiency thereby reducing work related stress and best outcomes for service users and their families.

We are committed to supporting social workers in their vital roles to achieve best outcomes in a healthy and efficient manner.

Current Client Challenges

Social Workers face significant hurdles that impact their efficiency, effectiveness and health.

Tasks Tracking

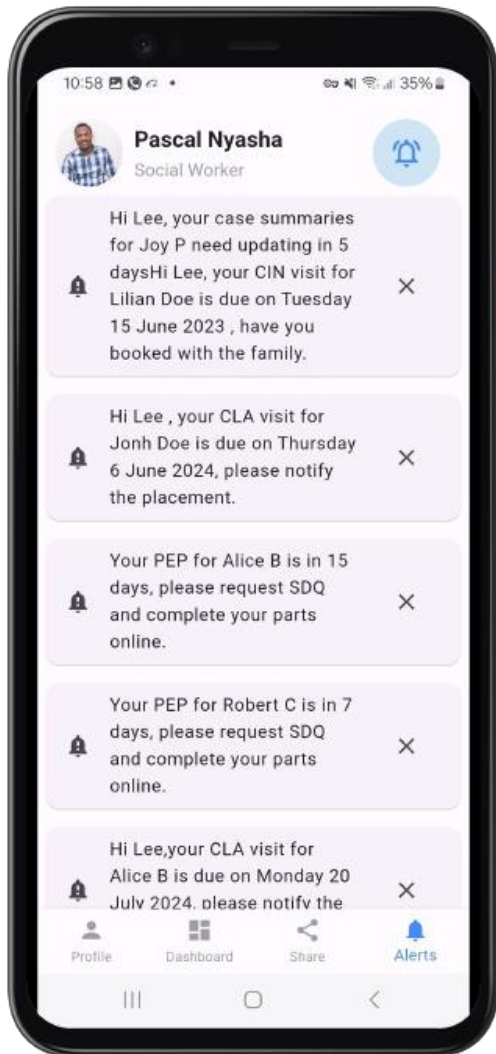

Track your tasks and see which tasks are urgent and get your priorities right. Red code means overdue, Yellow means its due and Green means you still have time before its due. Tymescales tracking shows you how many days are left before a task is due and how many days is a task overdue, helping to prioritise and plan.

Calendar integration

Tymscales integrates with all calendars. When you create a next action on Mosaic, Tymscales automatically picks it and put it on your calendar. This helps to synchronise work between work generated inside and outside Mosaic giving the social worker full view of their tasks holistically in one place and avoid talks being forgotten.

Notifications

Receive reminders in time to write up reports, send invites for meetings, update plans, organise visits, complete assessments, share minutes and reports and complete referrals before they become overdue and fall out of timescales.
