

THE ANTICIPATED CONCLUSION OF THE SCOURGE OF PRINCES TRILOGY

"I still have to write the story," he told Che. "The guy has a past..." "That should stay there," she quickly added. "C'mon, Nick. It doesn't have to be a puff piece, but it could give the world some insight on how a man can reinvent himself, shed his past like an old skin, and change the world without being berated for youthful mistakes."

A LOVE STORY IN ISOLATION

Santo Aretino is a complicated man with a convenient dysfunction. He cannot remember the violence in his life. Because of that ability, certain critical moments of his past do not exist.

And even though his victims deserved their fate, not everyone agrees Aretino should get away with his crimes. Indie journalist Nick Heath and retired private investigator John Bates have uncovered this past and are anxious to confront him the piecemeal evidence they have discovered. Can a man be both sinner and savior?

We find Santo, decades later, wealthy and reclusive until his philanthropic efforts become public. A humanitarian award and public pressure force him to reveal his whereabouts. His wife, Marley Cornish, had been the face of S.A. Holdings, a multi-billion-dollar conglomerate. Now, her husband must step forward. To kill, again?

Author Details

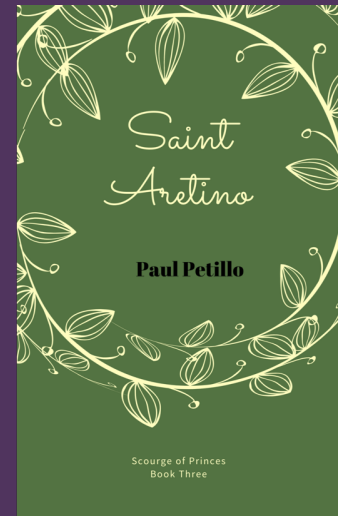

Paul has been writing his entire life. He is a storyteller. His first public effort came with the creation of a financial website in 1999. Its unique approach brought interest from publishers, and in 2002, he signed on with McGraw-Hill. He wrote four financial books with them before parting ways in 2008. He spent the following years writing for various publications and eventually became an SEO content provider for small businesses.

His most recent work, a collection of novellas titled *Blue Pond*, was released in July 2020.

He is married and lives in Portland, Oregon.
