

Yale

Young Global Scholars Program

Empowering the next generation of global leaders.

In 2018, the Yale Young Global Scholars Program (YYGS) will offer seven unique interdisciplinary sessions over the course of the summer. Bringing together extraordinary students from around the world, each session is designed to hone students' abilities to understand and think critically about contemporary global issues. Students will have the opportunity to learn from distinguished Yale faculty members, participate in seminars designed and led by current Yale students, and engage with practitioners who are renowned leaders in their field -- all while experiencing the world-class facilities and resources that Yale University has to offer.

Admission to the program is very selective. We offer need-based financial aid and encourage students from all countries to apply. Current high school sophomores and juniors (and their international equivalents) are eligible to apply.
