

In order to be fully effective, the correct masks and use thereof is critical. Do NOT do the following...

The proper wear of face masks is key. Improper wear will make your protection ineffective.

How to HANDLE your face masks

- Clean your hands with water and soap or hand sanitizer before touching the mask to put it on or take it off.
- Remove your reusable cloth mask by the straps and pull it away from your face. Dispose of the medical mask.
- Clean your hands after removing the mask.

How to CARE for your cloth mask

Once a day (ideally) wash your mask in soap or detergent, preferably with hot water.

Make sure the mask is completely dry before using.

Store the clean mask in an unused resealable plastic bag to protect it from germs.

When ready to use, clean your hands and pull the mask out of the bag by the straps.
