

PRODUCT SPECIFICATION

Detachable IEM Cable | PN: 7140840 | NASTECH

DESCRIPTION:

The Lune utilizes Null Audio's bespoke made silver/rare metal fusion material as high performance conductors, quad braided to reduce low range and interference noises. It minimizes transmission phase shifts and distortions while providing immense clarity over the sound realm with better depth, width, image focus and finer low range resolution. The Lune is of light weight, terminated with proprietary copper audio connectors, it draws on the best of both functionality and aesthetic of the cable world.

FEATURES:

- Silver/rare metal fusion alloy conductor and OCC casted.
- Litz 5 configured conductors - Four 18-strand conductors, each individually insulated, totaling 72 strands per wire, 288 strands per cable.
- Maximum tensile strength and flexibility with reduced microphonics.
- Ultra clear and durable TPE insulator providing extra layer of protection from oxidation, more resistant against sweat/skin oil.
- Support dual mode inline remote, compatible with both iOS and mainstream Android devices.
- Anodized Aluminum alloy IEM connector (for 2PIN/MMCX), Y-Splitter, 3.5/2.5mm connectors.
- Support customization for wide range of earphone connectors.
- Default ear guide for comfortable wearing.
- Nylon sleeve to provide extra protection (optional).
